

Risen Savior Catholic Preschool

October 2025 Newsletter

From The Director's Desk

October was very busy, but very productive. I was able to secure a grant from the Catholic Foundation which allowed me to have safety 3M film installed on the preschool entry doors, my office windows and the classroom windows. This film will prevent the windows from shattering in the event they are broken. I chose a film with a dark, mirrored tint, so it also provides us with more privacy. It has been helpful for Mrs. Angela's classroom by decreasing the UV rays from the morning sun, which has made her classroom more comfortable. It is that time of the year to switch out your child's emergency clothes from a summer set to a winter set. We will start sending clothes home this week. We appreciate you sending the winter clothes back as soon as possible.

Important Dates

Tuesday, November 11 – Veteran's Day - **NO SCHOOL**

Tuesday, November 18 – Principal's Meeting – Mrs. Medina off campus for the day.

Thursday, November 20 – Thanksgiving Feast – 3s, T/Th & 4s, M-F (More info to come)

Friday, November 21 – Thanksgiving Feast – 3s, MWF & 4s, MWF (More info to come)

Monday, November 24 – Parent/Teacher Conferences – (Signup Genius Link will be sent)

Tuesday, November 25 – Parent/Teacher Conferences – (Signup Genius Link will be sent)

Wednesday, November 26 – Friday, November 28 – Thanksgiving Break – **NO SCHOOL**

Tuesday, December 2 - #iGiveCatholic Campaign (More info to come)

October was a fun month, with our first field trip to the Galloping Goat Pumpkin Patch! The students were able to play with their classmates, spend quality time with family members, and create lasting memories. In class, we focused on building foundational skills through songs, activities, and hands-on projects. The students worked on tracing their names and identifying the first letter of their names. We also practiced how to properly hold and use scissors. In math, we practiced counting from 1 to 10, both forward and backward. They are worked identifying numbers 1 to 10 in both English and Spanish. Alongside that, the students reviewed letters, primary colors, and shapes. The students practiced coloring using gentle "baby strokes" and learning how to stay within the lines. In Religion, the students learned about St. Francis, one of God's special friends and how we are all called to be God's friends by showing love and kindness to everyone. It's been a busy and exciting time of growth and discovery! As we turn the page to November, it's the perfect time to slow down, express gratitude, and prepare for the season of giving.

Hello Families!

October has been a fun-filled and busy month in our classroom! We began by learning about St. Francis of Assisi, a beloved friend of Jesus. The children discovered how St. Francis cherished all of God's creations and even performed miracles involving animals. We were blessed to have Deacon Mark visit our class to share stories about St. Francis and to bless our stuffed animals and pet photos, such a special moment!

This month was also packed with exciting science activities. Students explored the life cycle of a pumpkin and learned about how God created color, and what happens when we mix two colors together. We took a nature walk to observe the beautiful features of God's creation in our local environment. One of the highlights was making homemade cookies, where we learned how a few simple ingredients can create something delicious.

This activity also helped us understand the importance of following a recipe. We wrapped up the month with a joyful field trip to the pumpkin patch, and it was such a blessing to see everyone enjoying themselves and making memories together.

As we look ahead to November, we're excited to focus on the theme of gratitude a perfect way to prepare our hearts for the Thanksgiving season.

Miss Precious 4s

Dear families, what an amazing month we've had. October was filled with chills and thrills. The students were able to go on a nature hunt discovering the special things about Fall. The students loved collecting leaves and learning about why they change color. In science the students learned about the life cycle of a pumpkin. They were able to see the inside of a pumpkin and learn about each part. In Math the students have learned to recognize their numbers 1-10 and write them in order. We are still working on number formation as well, counting out objects. For literacy we are working on story retells and using dramatic play to act out our favorite parts of the story. We are working on letter formation and learning about the order of the letters in our name. In art we are working on Halloween crafts such as pumpkin number mats and silly spider leg bowls. The students are doing well with pencil grips, and we are working on happy face coloring. I am so impressed with the children's hard work and growth they really are an eager bunch when it comes to learning. Thank you for all that you do and stay blessed.
