What is Cancer CARE for Life?

Cancer CARE for Life is a free program that comes with your health plan.

If you are ever diagnosed with cancer, the program is here to guide you through every step of your journey. You'll have expert support, a nurse to help you navigate care, and access to top treatment centers. Our goal is to make sure you get the best care possible when you need it most.

Day One Help

Cancer treatment can feel stressful and overwhelming. We are here to support you every step of the way. Our care team helps you stay informed, organized, and confident. Our oncology nurses coordinate your care, manage symptoms, and make sure nothing is missed.

Sign up on-line or by phone at 877-640-9610.

What We Offer

- Dedicated Oncology Nurse Experts
- Ongoing Care Coordination
- Symptom and Side Effect Support
- Understanding Your Treatment Plan
- Support for Family and Caregivers

Expert Medical Team

During your first call, our staff will gather your medical and insurance information. You will then be connected with your personal Oncology Nurse Expert. The nurse will listen to your concerns and answer questions about your diagnosis and treatment options. The entire Cancer CARE for Life team will be with you every step of your journey.

Life After Cancer

Support that continues beyond treatment

We Can Help

Finishing cancer treatment is an important milestone. For many people it brings relief – but it can also bring new questions about what comes next.

Life after cancer often includes follow-up appointments, managing lingering side effects, and adjusting to a new normal. It's a time when continued support can make a real difference.

Cancer CARE for Life offers a survivorship program designed to support you as you move forward after treatment.

Our oncology nurse team stays connected with you over time. They help you manage your health, plan your next steps, and feel confident moving forward.

Many people have questions during this stage of recovery. **You don't have to navigate this stage alone – we're here to help.**

Expert, Personalized Support

Our survivorship program is guided by oncology nurses and evidence-based guidelines, so you get care that is tailored to your needs and proven to help members stay healthy after treatment.

How Long We Stay with You

We stay with you for the long term, with care tailored to your needs.

10 years

Breast and Kidney cancer

5 years

Blood cancers (such as leukemia or lymphoma)

3 years

Most other cancers

Program Benefits

When you join the survivorship program, you receive **one-on-one support from an experienced oncology nurse** who understands the challenges that can follow treatment.

Your nurse can help with:

- Creating a survivorship care plan
- Managing side effects from treatment
- Understanding follow-up visits and screenings
- Finding resources for financial support, stress, or returning to work

You deserve care that continues long after treatment.

How to Get Started

If you are already a part of the Cancer CARE for Life program, you will move into survivorship support automatically when your treatment ends.

If you have finished treatment but are new to our program, joining is easy. Contact us, and we will guide you through next steps.

Frequently Asked Questions

What is Cancer CARE for Life?

Cancer CARE for Life is part of your company's health plan. It helps you and your family during and after cancer. Providing support, advice, and helpful resources to make things easier.

How do I use the program?

To gain access to our services, register online at [CancerCAREprogram.com](https://cancercareprogram.com), or call us at 1-877-640-9610. Once you are registered, a nurse will be assigned to you, and they will help you for the rest of your cancer journey.

Are you going to deny my care or tell my doctor what to do?

No. We do not replace or overrule your doctor. Our nurses work alongside your care team to give you extra support, answer questions, and help you understand your options. Your doctor always makes the final decisions about your care.

I don't have cancer; do I still need to register?

You only need to register if you have been diagnosed with cancer. If you had cancer before and are now cancer-free, you can still sign up as a survivor. We'll help you deal with any lasting issues or concerns. Covered dependents can also register for Cancer CARE for Life.

Will I still get support after my treatment ends?

Yes. When your treatment ends, you'll move into our Survivorship Program. We'll support you with follow-up visits, healthy lifestyle guidance, returning to work, and regular checkups to lower the chance of cancer coming back or starting again.

In moments that matter
