

a group such as NSF International (NSF.org, 800-673-8010) that verifies a specific model of filter removes lead.

- **Test your water for lead.** Call us at the phone number below to find out how to get your water tested for lead by a certified laboratory. Results may differ between first-draw water and water collected after the tap has been flushed.
- **Identify and replace plumbing fixtures that contain lead.** The amount of lead allowed in plumbing solder and fixtures has been reduced by several state and federal laws over the last few decades.

What Happened? What is being done?

This notice is precautionary. The school has been maintaining an orthophosphate residual

above 1.5mg/L since February 2026. Lead and copper samples will be collected throughout

the school by the end of June to ensure levels are below the EPA standard.

For more information from the water system, contact: Dylan Handy at 802-467-1405 or 3293 Burke Hollow Rd, W. Burke VT 05855, dhandy@kingdomeast.org.

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.
