

What Our Customers Say:

I had a new roof put on my house. My experience with Black Flag Roofing from first meeting him and throughout the entire process was nothing but professional. They are genuine, polite, kind, trustworthy, thorough, knowledgeable and an all-around great person. To this day he continues to be available to me if anything should arise. I would highly recommend them if you are looking for a new roof. You will not regret the decision.

-Kathy Polk

I worked with Black Flag on several projects already. I was very impressed with both their ability to work out claims with insurance companies, as well as roofing skills. The entire process was very detail oriented, from the initial staging of the equipment needed to replace the roofs, to keeping the owners informed with the progress with weekly updates to us as management. It's nice to finally work with a company that has someone that answers the phones and gets leaks, maintenance and replacements done in a timely manner.

-Paul Farese
