

Huracán Nero Auto Spa – Window Tint Limited Warranty

1.1 Window Tint Warranty Coverage

Huracán Nero Auto Spa (“the Company”) warrants all window tint films installed by our certified team to be free of manufacturer defects for the lifetime of the vehicle from the original date of installation.

- Initial installation must be performed by a certified Huracán Nero Auto Spa installer.
- Any re-application, repair, or warranty-related work must be performed by Huracán Nero Auto Spa after claim approval.

1.2 Workmanship Guarantee

In addition to manufacturer defect coverage, Huracán Nero Auto Spa guarantees installation workmanship for **30 days** from the date of installation.

- Issues such as peeling edges, excessive bubbling, or lifting reported within this period will be corrected at no cost.
- Beyond 30 days, these concerns are considered part of normal maintenance and are not covered under this warranty.

1.3 General Terms & Conditions

The following terms and conditions apply to all Huracán Nero Auto Spa Window Tint Warranty program products:

1. Warranty coverage begins on the date of installation.
2. Warranty excludes vehicles used for commercial purposes at any time prior to, during, or after installation.
3. Only certified Huracán Nero Auto Spa installers are authorized to install, re-apply, or repair tint under warranty.
4. Warranty claims must be reported to Huracán Nero Auto Spa within **30 days of the issue occurring**. Failure to submit a claim within this period may void eligibility.
5. The vehicle must remain continuously registered and located within North America for the duration of the warranty.
6. Warranty coverage is in the name of the vehicle owner at the time of installation. If the vehicle is sold, the warranty may be transferred **once** to the new owner by contacting Huracán Nero Auto Spa directly. Transfers must be completed within one year of vehicle purchase, or the warranty is void.

1.4 Care Requirements

Warranty coverage requires that the window film be properly cared for using recommended techniques:

1. During the curing period (**7–10 days**), windows must remain up and should not be cleaned or disturbed. Small bubbles or haze may appear and will dissipate as the film cures.
2. Only clean with soft microfiber towels and ammonia-free, alcohol-free cleaners. Do not use paper towels, brushes, or abrasive cloths.
3. Physical damage, including scratches caused by seatbelts, jewelry, pets, or foreign objects, is not covered.
4. No additional layers of tint, coatings, or adhesives may be applied to the film.
5. Excessive exposure to extreme conditions, harsh chemicals, or prolonged standing water may shorten film life and is not covered.
6. It is the customer's responsibility to follow these care guidelines. **Failure to do so may void warranty coverage.**
