

COSHH Risk Assessment

051201_Triple 8 Toilet Cleaner 750ml

Physical Properties (9):	Classification (2.2)	Environmental:	Important:
MSDS: 21/03/2024 Revision: 5 Liquid; green; perfumed odour. pH concentrated solution: 2.0-3.0. Relative density: 1.000-1.010; soluble in water. Viscosity: 250-1000 @ 20°C; non-flammable. 	Product not classified Contains citric acid anhydrous 1-5% (Eye Irrit. 2 - H319). Avoid contact with eyes, skin and clothing.	Environmental hazards: not classified. Not regarded as dangerous for the environment; not considered toxic to fish. Water-soluble and may spread in water systems; avoid release to environment.	For professional/intended use only. Use as toilet cleaner/disinfectant; not for oral consumption. Do not mix with other chemicals or detergents. Keep out of reach of children.
STORAGE (7)			
Hazards During Storage:	Incompatible Materials:	Control Measures:	Action Required:
No significant hazards under normal storage. Leaks/spills may create slippery floors/surfaces. Avoid environmental release and unauthorised access.	Do not mix with other chemicals or detergents. Avoid high temperatures and direct sunlight.	Store in tightly closed original container. Keep in a dry, cool, well-ventilated place. Store upright in designated chemical/cleaning store.	Maintain clear product label and SDS/COSHH availability. Do not decant into unlabelled containers. Check containers regularly for damage or leaks.
Normal Use:	Good Practice Controls:	USAGE	Control Measures During Use:
Normal use: toilet cleaner/disinfectant for intended cleaning applications only. Low hazard under normal conditions of use.	Provide adequate ventilation. Avoid contact with skin and eyes. Do not eat, drink or smoke during use.	Use as supplied for toilet cleaning where directed. Apply carefully to avoid splashing. Do not mix with other chemicals/detergents.	No specific eye protection required during normal use; avoid splashes. For sensitive skin or prolonged contact, wear suitable protective gloves.

	Wash hands after use and before breaks.		Wear appropriate clothing to prevent repeated/prolonged skin contact. Clean spills immediately; beware slippery surfaces.
FIRST AID MEASURES (4)			
Inhalation: Move person to fresh air. Rinse nose and mouth with water. Get medical attention if discomfort continues.	Skin: Rinse immediately with plenty of water. Remove contaminated clothing. Get medical attention if irritation persists.	Eyes: Rinse immediately with plenty of water for at least 15 minutes. Remove contact lenses if present and easy to do. Get medical attention if irritation persists.	Ingestion: Do not induce vomiting. Rinse mouth thoroughly with water. Never give anything by mouth to an unconscious person. Get medical attention if discomfort continues.
DISPOSAL			
Minimise waste where possible. Dispose of contents/container in accordance with local regulations.	Empty packaging must be drop-free when inverted. Wash with plenty of water.	Waste packaging should be collected for reuse or recycling where possible. Waste to licensed disposal site if required.	Normal use solutions are expected to be flushed to sewers. Do not discharge large spillages to drains/watercourses or onto ground.

Risk Classification:	 <p>Overall Risk: LOW Residual Risk: LOW with good hygiene, no mixing with other chemicals, prompt spill clean-up and suitable gloves for prolonged/sensitive-skin use.</p>
