

COSHH Risk Assessment

056255_Triple 8 Scrubber Dryer Detergent 5L

Physical Properties (9):	Classification (2.2)	Environmental:	Important:
MSDS: 30/04/2026 Version: 10.44 Physical state: Liquid Colour: Blue. Appearance: Liquid. Odour: characteristic. pH: 13 	 GHS05 H314 - Causes severe skin burns and eye damage. P264 - Wash hands thoroughly after handling.	Not classified as hazardous to the aquatic environment in the SDS. Avoid release to the environment. Do not allow neat product or spill residues to enter drains, surface water or soil.	Professional use only. Keep away from children/unauthorised persons. Wear gloves and eye protection when handling/dosing. Do not mix with acids or other chemicals. Immediate medical attention for burns, eye exposure or ingestion.
STORAGE (7)			
Hazards During Storage:	Incompatible Materials:	Control Measures:	Action Required:
Corrosive alkaline concentrate. Risk of severe skin burns and serious/permanent eye damage if leaked or splashed. Spills may create slip and chemical-burn hazards.	• Oxidizing agents, • strong acids and • metals. Keep away from acidic products/descalers and incompatible chemical storage groups.	Store locked up in the original, labelled container. Keep container closed when not in use. Store upright in a suitable chemical store/bunded area.	Keep SDS and COSHH assessment available. Check containers for leaks/damage. Provide spill kit and eyewash access. Only trained staff to handle concentrate.
Normal Use:	Good Practice Controls:	USAGE	Control Measures During Use:
Floor care - scrubber drier machine cleaning. Dilution: 1:80 (1.25%) Do not use for hand cleaning, spray use or other tasks unless separately assessed.	Use correct dilution/dosing. Add product carefully to water/machine tank to prevent splashing. Wash hands after handling. Do not eat, drink or smoke.	Use diluted in scrubber drier machine only: 1 part product to 80 parts water (1.25%). Follow machine instructions and site cleaning method statement.	Wear nitrile/chemical-resistant gloves and safety glasses/eye protection when handling concentrate, dosing or cleaning spills. Avoid skin/eye contact and breathing spray/vapour. Ensure good ventilation.

	Clean spills immediately.		Keep public/pupils away until floor is dry and safe.
FIRST AID MEASURES (4)			
Inhalation: Remove person to fresh air and keep comfortable for breathing. Get medical advice if unwell.	Skin contact: Wash with plenty of water. Remove contaminated clothing and wash before reuse. Get medical advice/attention. Burns may occur.	Eye contact: Rinse cautiously with water for several minutes. Remove contact lenses if easy to do. Continue rinsing. Get immediate medical advice/attention.	Ingestion: Do NOT induce vomiting. Rinse mouth. Drink plenty of water. Get medical advice/attention.
DISPOSAL			
Treat neat/unused product and contaminated absorbent as chemical waste due to corrosive classification.	Do not pour neat product into drains, surface water or soil. Avoid environmental release.	Collect spills. Absorb with inert material such as clay/diatomaceous earth and place in a labelled waste container.	Dispose via site-approved/licensed waste contractor in accordance with local/national requirements. Retain disposal records where applicable.
Risk Classification:	 Overall Risk: MEDIUM for diluted scrubber-drier use only when correct 1:80 dilution, training, gloves, eye protection, controlled storage and spill controls are in place.
