

# COSHH Risk Assessment

## BA053-75 \_Jangro Premium Unperfumed Virucidal Cleaner (750ml)

Physical Properties (9):	Classification (2.2)	Environmental:	Important:
Liquid; pink; characteristic odour. pH: 10. Boiling point: >=100°C. Soluble in water; relative density: 1. 750ml trigger spray/vaporiser.	CLP: Not classified. Repeated/prolonged skin contact may irritate; eye contact may cause slight irritation.	Aquatic acute/chronic: not classified. Rapidly degradable. Avoid release to the environment and do not dispose to outside/rainwater drains. Not regulated for transport.	Professional use only. Ready-to-use disinfectant-cleaner. Avoid contact with eyes. Do not eat, drink or smoke when using. Use safety signage where surfaces/floors may become wet. <b>Use correct contact time:</b> <ul style="list-style-type: none"> <li>• 30 seconds for bacteria/fungi;</li> <li>• 1 minute for enveloped viruses such as coronaviruses.</li> </ul> Do not mix with other cleaning chemicals.
STORAGE (7)			
Hazards During Storage:	Incompatible Materials:	Control Measures:	Action Required:
Risk of spillage/leakage if bottle is dropped, damaged or trigger is not secured. Possible skin/eye contact during leaks or spill clean-up. Trigger sprays are not child-proof. risk if accessed by unauthorised persons. Poor storage can increase manual handling, trip and hygiene risks.	Keep away from oxidising agents, strong acids and strong bases. Do not store with food, drink, medicines or incompatible chemicals. Keep only in the original container.	Store securely in a cool, dry and well-ventilated cleaners store/cupboard. Keep container closed when not in use and ensure trigger is secure. Restrict access to trained/authorised cleaning staff. Keep SDS and COSHH assessment available to operatives. Clear up spillages immediately using suitable absorbent material if required.	Transfer to storage immediately after delivery; do not leave in public/client areas. Use oldest stock first. Check storage area regularly for leaks, damaged containers, clutter and poor segregation. Remove damaged containers from use and report to HSQE manager.

Normal Use:	Good Practice Controls:	USAGE	Control Measures During Use:
<p>Used by cleaning operatives for routine cleaning/disinfection of hard surfaces.</p> <p>Spray onto a clean cloth to reduce spray mist/overspray.</p> <p>Leave for the manufacturer contact time, then wipe with a clean cloth.</p>	<p>Only trained staff to use.</p> <p>Read the label/SDS before use.</p> <p>Use gloves where there is repeated or prolonged contact; nitrile gloves recommended.</p> <p>Avoid contact with eyes and unnecessary skin contact.</p> <p>Avoid breathing spray mist.</p> <p>Wash hands after use.</p> <p>Do not eat, drink or smoke during use.</p> <p>Ensure good general ventilation.</p>	<p>Place safety sign if wet floor/surface risk is created.</p> <p>Apply product.</p> <p><b>Contact time:</b></p> <p>30 seconds for bacteria/fungi;</p> <p>1 minute for enveloped viruses.</p> <p>Wipe clean.</p> <p>Return bottle to store after use.</p>	<p>Do not spray towards face or other people.</p> <p>Do not mix with other products.</p> <p>Keep bottle upright and trigger secured.</p> <p>Keep away unauthorised persons.</p> <p>Wipe up spillages immediately.</p> <p>Report any irritation, damaged container or incorrect storage.</p>
<b>FIRST AID MEASURES (4)</b>
