

Traffic Engineering Manager (PE Required, PTOE Preferred)

Wooster & Associates | Full-Time | Pittsburgh, PA

Wooster & Associates is seeking an experienced Traffic Engineering Manager to lead our growing traffic engineering practice. This position offers the opportunity to manage challenging transportation projects, mentor engineering staff, build client relationships, and contribute to the continued growth of the firm.

Responsibilities

- Lead Transportation Impact Studies (TIS), Traffic Impact Assessments (TIA), traffic operations analyses, and roadway safety evaluations
- Coordinate with PennDOT, municipalities, developers, and regulatory agencies
- Manage project schedules, budgets, staffing, quality control, and project delivery
- Mentor and supervise engineering staff while supporting their professional development
- Support proposal preparation, business development, and client relationship management
- Represent Wooster & Associates at public meetings, Planning Commission meetings, and agency coordination meetings

Qualifications

- B.S. in Civil Engineering
- Professional Engineer (PE) license required
- PTOE certification preferred
- 10+ years of traffic engineering experience
- Strong knowledge of PennDOT procedures, MUTCD, Highway Occupancy Permits, and traffic engineering software (Synchro, SIDRA, HCS)
- Experience in other states a plus
- Demonstrated project management, leadership, and communication skills

Why Join Wooster & Associates?

Wooster & Associates offers a collaborative, employee-focused environment where you'll work on meaningful transportation projects while helping shape the future of our growing firm.

Benefits Include

- Competitive salary and comprehensive benefits package
- 401(k) with company contribution
- Paid vacation, personal time, and holidays
- Flexible schedules and hybrid work opportunities
- Professional development, continuing education, and licensure reimbursement
- Career advancement and leadership opportunities
- If you're ready to lead projects, develop client relationships, and mentor the next generation of traffic engineers, we'd love to hear from you

How to Apply

Please apply directly through Wooster's careers page by completing the application form and uploading your resume for the role that best fits your experience:
