TRACKED SCISSOR LIFT

LGMG's crawler scissor lift excels in challenging any complex environments, offering outstanding performance on slopes and uneven ground.

- With a compact size and the ability to turn 360 degrees on the spot, the machine is highly maneuverable, allowing for precise operation in narrow space.
- The crawler chassis has a large contact area with ground to provide superior obstacle-surpassing capabilities while maintaining smooth operation and stability.
- The innovative crawler design allows a uniform distribution of total weight to lower ground pressure and prevent damage.
- Hydraulic outriggers deliver a better solution on uneven ground.
