

Ready. Set. Action!

National Public Health Week: April 6-12

We recognize how public health has improved our daily lives, safeguarded healthcare, expanded our life spans, and strengthened our communities. This week also honors the public health workers who show up for us, our patients and families every day. They advocate for policies and practices that promote good health for all.

For more information about our public health programs and services, please call (213) 536-5815.
