

April is National Minority Health Month

Community-led advocacy plays a critical role in addressing systemic health inequities and promoting the wellbeing of minority populations. In partnership with healthcare organizations and local agencies we support equity and

justice in policymaking to develop community-driven solutions. For more information, give us a call at **(213) 536-5815** or visit our website to learn about our services.

Providing God's spiritual healing through healthcare.
