

August is National Immunization Awareness Month

Focus is on the importance of routine vaccinations and boosters for all ages – particularly for childhood immunizations, flu and COVID-19. It is important to stay up to date to help protect yourself, your family and your community's health.

Don't let your guard down – take charge of your health!
Please call **(213) 536-5815** for more information about immunizations.

Providing God's spiritual
healing through healthcare.
