

National Infant Immunization Week: April 20-27

Protecting children two years and younger from vaccine-preventable diseases is the focus of National Infant Immunization Week. Recommendation is that parents ensure their children stay on track with well-child appointments and routine vaccinations. It is critical to provide protection against potentially life-threatening diseases. Schedule a visit with your child's pediatrician today or give us a call at **(213) 536-5815**.

Providing God's spiritual
healing through healthcare.
