

# ■ New Bathroom Guide

Planning a new bathroom is exciting — but with so many choices to make, it's helpful to have a clear plan. At **Bathroom Fitters Derby**, we've created this step-by-step guide to help you design and plan your dream bathroom with confidence.

## 1. The Layout

The foundation of every successful bathroom project is the layout. Whether it's a compact en-suite or a spacious family bathroom, smart planning ensures your space is functional, comfortable, and flows well.

- Position the key fixtures (toilet, basin, bath, shower)
- Consider plumbing access — moving pipework is possible but adds cost
- Think long-term: allow space to clean, store items, and move around

We include layout planning in our design consultations, helping you avoid common pitfalls and maximise every inch of space.

## 2. The Design

Once the layout is set, it's time to bring your vision to life. From sleek modern minimalism to spa-like luxury or timeless traditional styles, this stage is all about creating a look that reflects you.

- Tiles (size, colour, finish, texture)
- Fixtures & fittings (chrome, black, brass, brushed steel)
- Wall finishes & feature panels
- Flooring that ties everything together

Our in-house designers can help you visualise the space and recommend materials to suit your taste and budget.

## 3. The Price

The cost of a new bathroom depends on finish, labour, and any plumbing or structural changes. Here's a rough guide:

- Basic: £5,000 – £8,000
- Mid-range: £8,000 – £10,000
- Premium: £10,000 – £15,000+

This includes full supply and fit. For a tailored price, try our Bathroom Cost Calculator or book a free home consultation.

## 4. The Team

Bathrooms are one of the most technical rooms to renovate, requiring plumbing, electrics, carpentry, tiling, and finishing all coordinated together.

- We use specialist trades at every stage
- Our team has over 20 years' experience
- You'll have one point of contact throughout
- Everything is installed to a professional, high standard

## 5. Storage

Storage can make or break a bathroom's usability. Keeping essentials within reach and clutter hidden creates a calm, practical space.

- Vanity units under basins
- Recessed shelving in showers
- Tall cabinets for towels & linen
- Mirror cabinets for toiletries

## 6. Lighting

Great lighting transforms a bathroom — both in function and atmosphere.

- Ceiling spotlights for overall brightness
- Wall lights for warmth and style
- Mirror lighting for shaving & makeup
- Mood lighting (optional) for spa-like luxury

All lighting is installed to IP safety standards by our qualified electricians.
