## MOTORCYCLE LIFT

**Hydralift's Patented Design:** Hydralift mounts and lifts higher than any other power lift, providing added security and valuable ground clearance. In addition, you are lifting your motorcycle up out of the way from the dirt and grime of the road.

**No dragging in and out of driveways**

- Self Contained Hydraulic Lift
- Carry Your Bike/Tow Your Car
- Lightweight & Powerful
- Lifts Over 1,000 Pounds
- One Person Operation
- Easy Push Button Operation
- Automatic Locking System
- Highest Ground Clearance
- Stable and Added Security
- Folds for EZ Storage

### E-Z Loading:

Hydralift's loading ramp drops flush to the ground so you have easy ground level roll-on roll-off for your motorcycle.

**Powerful:** Only Hydralift can offer its patented hydraulically driven design. Hydraulic power provides more lifting capacity with the lightest expensed weight. At 1,000 pounds of lifting capacity, Hydralift is the most powerful power-lift on the market.

**Lightweight:** Hydralift's patented design weighs in at only 288 pounds, making Hydralift the lightest power lift on the market. It can be installed to the rear on most RVs\*.

- Class A - Gas & Diesel
- Bus & Truck Chassis
- 5th Wheels
- Super Class C

\*Do not exceed Mfg's GVWR

### Strength and Dependability:

From a light load to the heaviest load you will find the superior hydraulic components of Hydralift seem to make your motorcycle lift on your RV move consistently and effortlessly no matter the weight the Hydralift is lifting.

### Automatic Locking System:

Hydralift utilizes its patented automatic locking system with an easy to use single handle release.

Assuring secure stable storage and transport of your motorcycle Automatic means no need for manual pins, clamps or bolting to lock your motorcycle lift into place.

### Folds for Storage:

When not in use, Hydralift can easily be removed or placed in the stored and folded position on your RV.

Remove 2 pins to fold the Hydralift to the rear of your RV, allowing for unrestricted use of Hydralift's Class III 8,000lb towing receiver.

### Rear Access:

With Hydralift there is no obstruction to the rear of your RV. The Hydralift's frame is a welded chassis that moves up and down together as one unit. When operating a Hydralift the complete lift moves out and away from the rear of your RV allowing access to compartments and/or the engine's access door.

## GOLF CART & OTHER CARGO

### 42A4874HBGC

The 42A4874HBGC lift is a cargo lift that is specially designed with a 48"x74" Extruded aluminum platform to fit most gas and battery golf carts and other cargo.

- 8 Anchor Locations
- Wheel Stop
- Entrance Dove Tail
- 48x74 Platform
- Platform Support
- Chromoly Reinforced
- Auto Locking System
- High Cap Hyd System
- EZ Engine Access
- Towing Extension

## THE ART OF LIFTING

# ACCESSORIES

### HYDRALIFT NO-TOUCH GARAGE ENCLOSURE

**Expandable to Fit Larger Bikes**  
**Portable**

- E-Z to Use
- Easy to Store
- Strong & Lightweight
- Cover your bike in seconds
- Enclosed aluminum floor pan
- Remove and use as a portable garage at home or while on the road
- Added security, providing a safe place to keep your motorcycle while on the road or at home

4010210 Garage Enclosure

### HYDRALIFT ALUMINUM COVER

**E-Z Bolt-On**

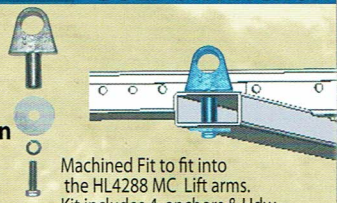

Add a lightweight aluminum floor cover pan to your Hydralift Motorcycle Lift.

*This item is included with the HLGC42  
Not to be used for carrying weight*

HLP8018 Aluminum Platform

### HYDRALIFT BOLT-ON ANCHOR

**E-Z Bolt-On**

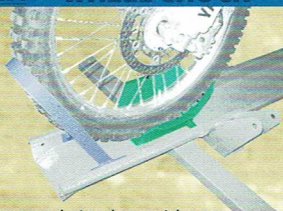

Machined Fit to fit into the HL4288 MC Lift arms.  
Kit includes 4 anchors & Hdws.

*This item is included with the HLP8018*

TDA3401 Add-on Anchor

### HYDRALIFT WHEEL CHOCK

**E-Z Bolt-On**

Keep your motorcycle in place without the use of your kick stand to assist you in tying down your bike.  
When traveling the HLWC39 will keep forward wheel pressure to the wheel stop.

HLWC39 Wheel Chock

### HYDRALIFT FORWARD ANCHOR

**E-Z Bolt-On**

*Will not work with the HLP8018*

- Great for motorcycles with a front faring.
- Adds an additional tie down location furthest position forward to the motorcycle ramp.
- Can also be used to extend the ramps length.

TDF32 Forward Anchor

### HYDRALIFT LED LIGHT KITS

#### LTK4288 LED LIGHT KIT

**E-Z Bolt-On**

Special designed brackets, lights & hdw to add a set of super bright LED lights to your Hydralift HL4288/85 motorcycle ramp.

#### For Aluminum Floor Cover / Pan

#### LTKHLGC LED LIGHT KIT

**E-Z Bolt-On**

If your Hydralift has a HLP8018 Floor Cover the LTK4288 Light Kit will not work. The LTKHLGC lights are low profile and made to install to the HLP8018 or when other low profile lights are required.

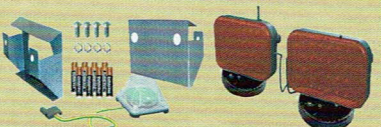

#### For Platform Lifts

#### LTKWLS Wireless LED Light Kit

**E-Z Bolt-On**

Platform lifts are difficult to wire lights to because the lift pivots inward/outward. The LTKWLS is a wireless LED light kit with special made bolt-on brackets to allow a strong and secure base for the magnetic wireless LED Lights.

## POWER STRAPS WITH DUAL SOFT LOOPS

• Dual Soft Loops

• Heavy Duty Vinyl Coated Hooks

• 2,500 lb Break Strength Locking Ratchet

• 3,500 lb Webbing

• 800 lb Working Load

• Made in the USA

• DOT Approved

• Second Soft Loop

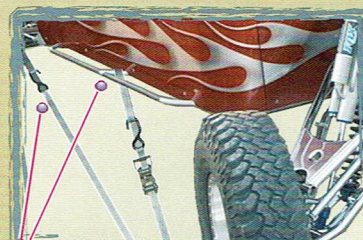

HL2608 Soft Loop Tie Down

• **Soft Loop:**  
Provides a strong and flexible scratch free attachment

• **Reversible:**  
The Hydralift Soft Loop Tie Down can be reversed to move the buckle away from your bike

• **With the dual soft loops**  
you have a wide range of use even in the tough to connect places.
