

ELECTRIC VEHICLE (EV) CHARGER RESIDENTIAL REBATES

See back for details regarding specific rebate requirements.

When the time comes for you to make the switch to an electric vehicle, we want the process to be as convenient and easy as possible. Receive up to a \$700 rebate toward the purchase and installation of a hardwired (non-portable) 240-volt electric vehicle (EV) charger for your home. Installation automatically qualifies for Electric Vehicle Charging Rates saving you even more money.

How to Receive a Rebate

(Valid for residential customers of Elk River Municipal Utilities only. Rebates come in the form of a bill credit.)

- 1 Complete the front and back of this rebate form.
- 2 Include a copy of the original itemized sales receipt and/or invoice indicating the brand and model purchased.
- 3 Installation of a 200-amp lever bypass meter socket and passed inspection report from a state certified electrical inspector.
- 4 Mail or bring to
Elk River Municipal Utilities
ATTN Rebate Program
13069 Orono Pkwy NW, Elk River, MN 55330
- OR Email customerservice@ermumn.com

CERTIFICATIONS AND SIGNATURE

I hereby certify that

- The information contained in this application is accurate and complete.
- All installation is complete, and the unit(s) is operational prior to submitting application.
- All rules of this rebate program have been followed.

I agree to verification of equipment installation which may include a site inspection by a program or utility representative. I understand that I am not allowed to receive more than one rebate from this program on any piece of equipment. I agree to indemnify, defend, hold harmless and release ERMU from any claims, damages, liabilities, costs and expenses (including reasonable attorney's fees) arising from or relating to the removal, disposal, installation or operation of any equipment or related materials in connection with the programs described in this application, including any incidental, special or consequential damages.

ERMU reserves the right to reject any rebate application submitted as a result of work performed by a contractor who has failed to adhere to the terms and conditions established for the rebate program.

EV CHARGER REBATE QUALIFYING INFORMATION (Rebates valid up to one year after date of installation)

ELECTRIC VEHICLE CHARGER REBATE REQUIREMENTS

- This rebate is available to residential electric customers only.
- The hardwired EV charger must be for on-road vehicles only.
- Energy supplied to the EV service must be used for the sole purpose of electric vehicle charging. All other uses are prohibited.
- The residential electric customer is responsible for the installation of a 200-amp lever bypass meter socket connected directly to the property's electrical panel. (Upgrades to existing electrical systems may be necessary.)
- An inspection of the hardwired installation must be performed by a state certified electrical inspector.
- Upon completion of inspection, ERMU meter technicians will install the meter.

ELECTRIC VEHICLE CHARGING RATES

- Residential electric customers that install a qualifying hardwired electric vehicle charger automatically qualify for the special Electric Vehicle Charging Rates outlined in Elk River Municipal Utilities' Schedule of Rates & Fees.
- The Schedule of Rates & Fees can be found by visiting our website at ERMUMN.COM.
