5.1 Wages shall be paid by cheque, cash or electronic banking deposit not later than Thursday of each week. If paid by cheque or electronic deposit on Thursday, and a Holiday occurs on Thursday, payment by cheque or electronic deposit shall be on the preceding Wednesday. Employers payroll week ending will be 12:00 midnight Saturday of each week which is the EI week ending. If an employee incurs costs for a company payroll cheque which is rejected due to "Non Sufficient Funds", then all such costs will be borne by the Contractor.

Failure of payment in accordance with this provision will require the employer to pay waiting time of two hours at regular straight time including all applicable benefits per day until payment is received.. If it is mutually agreed between the Business Manager and the Contractor that conditions beyond the control of the Contractor prevent the Employer from delivering the pay to the employee as per Article 5.1, then the penalty as pre described will not apply.

Specifics for these are found in their respective Appendix.

The Union has an ongoing responsibility to identify working pensioners and those employees who are over the age of 71 and to provide the wage schedules for all such employees, applicable to the sector in which they are working. These schedules will be available upon hire or on change of status of the particular employee.

It is understood and agreed that the only additional cost arising from the implementation of this provision for which the Employer shall be responsible will be the amounts of additional statutory obligations (such as WSIB, EI, CPP and EHT) arising from the payment of additional wages to the employee pursuant to this provision.

The parties shall work cooperatively to address and resolve issues arising from the implementation of this provision.

In the event that there are future changes to the relevant statutes or regulations which affect this provision during the life of the current 2022-2025 Collective Agreement, the parties shall work cooperatively to identify and agree on appropriate amendments.

If not, a penalty of \$100.00 per business day to a maximum of five (5) days shall prevail. If it is mutually agreed between the Business Manager and Contractor that conditions beyond the control of the Contractor prevent the Employer from delivering this to the employee, then the penalty as pre-described will not apply. c) Unemployed welders shall be paid a total of \$160.00 for a qualification test successfully completed on the noted MCAO Standard 6010/7018 Carbon Steel procedure. The welder will be entitled to receive this pay from the first Contractor that hires the welder. When hired, the welder is to submit written verification to the Contractor (from the Local Union) that such test was conducted while unemployed. The Contractor shall thereafter be reimbursed by MCAO for this payment. The Local Union will make every effort to keep the Tickets of all unemployed welders fully updated with respect to the noted MCAO Standard 6010/7018 Carbon Steel Procedure, where the individual welder has normally been required to work to this procedure by contractors in the past. The number of unemployed welders tested to this carbon steel procedure will be determined by the Local Union based on expected future welder demand; and is subject to future joint review by MCAO and the OPTC.

d) Costs related to Test Facilities and Materials, in relation to the noted MCAO Standard 6010/7018 Carbon Steel Procedure tests conducted by the Local Union (on both Employed and Unemployed Welders), shall be covered by the Local Union; and reimbursed to the Local Union at \$125.00 per test successfully completed. e) All Welders will normally have their ticket update testing conducted during the month of their birthday; in each year during which an upgrade test is required by the TSSA (ie. annually or otherwise).

f) No Welder shall be dispatched without holding an updated ticket for the specific MCAO Procedure called for by the Contractor.

21.5 This requirement shall not have any effect on established procedures in certain MCA Zones where additional/other standard welding procedures have been established and recognized by the TSSA.

24.4 Both the Union and employer acknowledge that exceptions may arise where the employer is required to install equipment such as skid mounted vessels, pumps, driers, exchangers, etc. Prior to commencement of this work, where the employer is required to install such components and if the matter cannot be mutually resolved between the employer and the union, it shall be immediately referred to the Provincial Joint Advisory Board for an immediate solution.

24.5 Subject to existing jurisdictional agreement between trades, decisions of record, or established area practice, all brackets, hangers and pipe supports that are not specifically itemized and listed in a standard manufacturer's catalogue, are to be fabricated by members of the Union.

3.) Signatory Contractors working under the terms and conditions of Local or Provincial ICI collective agreements wishing to pre-fabricate plumbing (all sizes) will contact the local union Business Manager, where the plumbing is to be installed, and demonstrate the cost efficiencies for such fabrication and perform a similar assessment of full-time workforce equivalencies regarding mobility.

The MCAO and OPTC agree that they will jointly oppose any application to the Ministry of Labour by any other group of employers for “Designated Regional Employer Organization (DREO)” status (under the Labour Relations Act, 1995) applicable to work in the Industrial, Commercial and Institutional Sector of Ontario’s construction industry, as covered by this collective agreement.

26C.2 The MCAO on its own behalf and on behalf of an MCA Zone Association/DREO may apply to a Local Union affiliated with the OPTC to modify the Provincial Agreement in respect of the following only:

- 3.) Text of amendments applied for concerning the matters listed in Clause 26C.6.

The Application shall constitute the entirety of the Final Offer of the Applicant MCAO.

26C.8 The MCAO shall serve its application on the OPTC and the affected Local Union. The MCAO and the OPTC shall provide notice of the application to all other MCA Zone Associations and Local Unions respectively for information purposes only.

26C.10 If the parties are unable to resolve the existence of competitive disadvantage and/or are unable to agree on the appropriate Local amendment(s), the Local Union and or the OPTC shall file a Response to the application within ten days of receipt of delivery of the application containing any and all evidence and submissions that the Local Union and/or OPTC believe are relevant to:

- 2.) The text of any appropriate amendments and/or the necessity of amendments concerning the items enumerated in Clause 26C.6;

by delivery to the MCAO and the affected MCA Zone Association.

The Response shall constitute the entirety of the Final Offer of the OPTC and/or Local Union.

ARTICLE 26D - ARBITRATION

26D.1 The Application will be arbitrated no later than the 14th day following delivery of the application under Clause 26C.2. The Arbitrator must:

- 2.) Select either the amendment proposed in the Application or those proposed in the Response by the final offer selection process.

The Arbitrator will hold a written hearing and if he or she deems it necessary (or if either party requests same), shall also hold an oral hearing, whether in person, by teleconference, or otherwise; and shall render a decision within 3 days following completion of hearings.

26D.2

- 1.) In order to consider the issue of competitive disadvantage, the Arbitrator shall consider all points raised in the application and response.
- 2.) The Arbitrator shall determine whether the competitive disadvantage would be removed if the Provincial Agreement were amended in accordance with either of the final offers.
- 3.) If the amendment of the Provincial Agreement in accordance with only one of the final offers would remove the competitive disadvantage, the Arbitrator shall select that final offer.
- 4.) If amendment of the Provincial Agreement in accordance with neither of the final offers would remove competitive disadvantage, the Arbitrator shall select the final offer that most reduces the disadvantage.
- 5.) If the amendment of the Provincial Agreement in accordance with either of the final offers would remove the competitive disadvantage, the Arbitrator shall select the final offer that would be less of a deviation from the Provincial Agreement.
- 6.) Within 30 days of ratification of the 2007/2010 Provincial Agreement, the OPTC and the MCAO will meet to agree on a roster of arbitrators to arbitrate applications for Local Amendments of the Provincial Agreement. Thereafter, the OPTC and MCAO will meet within 60 days prior to expiry of the current agreement, to renew the roster of arbitrators for the subsequent agreement period. Where mutual agreement cannot be reached on the roster of arbitrators, the chair of the Ontario Labour Relations Board or its successor will be asked to appoint them.
- 7.) The parties shall each pay one-half of the costs and expenses of the arbitrator.

8.) Any disputes regarding whether work falls within the target area of a Local Amendment Arbitration or any other issue dealing with the interpretation, application or alleged violation thereof will be resolved through the grievance procedure under the Provincial Agreement and shall be referred to the final offer selection arbitrator imposing the Local Amendment at issue.

A Local Amendment Agreement reached under Article 26B or 26C or via Local Amendment Arbitration award under Article 26D may be reviewed annually by the Applicant and the affected Local Union (understanding that a request for such review may not be unreasonably objected to by the other party), and such agreement or award, as the case may be, shall cease to operate for all purposes in the event that the Local Union can establish upon agreement with the applicant or before the same arbitrator, that the competitive disadvantage no longer exists in light of subsequent market conditions. Where such agreement or award ceases to operate, any work in progress that has been contracted or tendered shall be performed under the terms of the local amendment, agreement or award.

3.) There shall be a bar of one year from the date the original application was delivered to the affected Local Union on reapplying for local amendments to the Provincial Agreement, if an application for such amendments is previously made to an affected Local Union. Once the trainer is secured and the course is available to be administered, UA Local 527 will, to the best of their ability, taking into consideration the length of time needed to deliver this course to all members that may require the training, dispatch members to contractors with elevated platform training.

UA Local 527 and the MCA Zone 4, Zone 6 and Zone 7 will work together to identify all existing members of UA Local 527, through records kept on file at the Local Union Office and from employer history records held by individual contractors, to build into the database potential members that have not been trained in the past.

This cooperative effort will ensure that all employees will have the basic needed training to report to any construction project in the ICI sector. All other training that may be required for site specific projects will be the responsibility of the individual contractor to provide to the employee.

As both the United Association and the Mechanical Contractors Association agree there is a need for elevated work platform Training, UA Local 527 will endeavor to secure a Trainer and deliver the proper certification for the operation of elevated work platforms that are used in the ICI Sector.

Once the trainer is secured and the course is available to be administered, UA Local 527 will, to the best of their ability, taking into consideration the length of time needed to deliver this course to all members that may require the training, dispatch members to contractors with elevated platform training.

UA local 527 and the MCA Zone 4, Zone 6 and Zone 7 will work together to identify all existing members of UA Local 527, through records kept on file at the Local Union Office and from employer history records held by individual contractors, to build into the database potential members that have not been trained in the past.

This cooperative effort will ensure that all employees will have the basic needed training to report to any construction project in the ICI sector. All other training that may be required for site specific projects will be the responsibility of the individual contractor to provide to the employee.

As both the United Association and the Mechanical Contractors Association agree there is a need for elevated work platform Training, UA Local 527 will endeavor to secure a Trainer and deliver the proper certification for the operation of elevated work platforms that are used in the ICI Sector.

Once the trainer is secured and the course is available to be administered, UA Local 527 will, to the best of their ability, taking into consideration the length of time needed to deliver this course to all members that may require the training, dispatch members to Contractors with elevated platform training.

UA Local 527 and the MCA Zone 4, Zone 6 and Zone 7 will work together to identify all existing members of UA Local 527, through records kept on file at the Local Union Office and from employer history records held by individual Contractors, to build into the database potential members that have not been trained in the past.

LETTER OF UNDERSTANDING

**JOINT MCAO-OPTC STATEMENT OF COMMITMENT TO THE
UNIONIZED INDUSTRIAL, COMMERCIAL AND INSTITUTIONAL
SECTOR OF THE CONSTRUCTION INDUSTRY IN THE PROVINCE
OF ONTARIO**

The Mechanical Contractors Association of Ontario representing Union Contractors employing UA members in the Province of Ontario who perform the work of installing and maintaining mechanical systems in the ICI Sector.

The Ontario Pipe Trades Council representing Plumbers, Steamfitters and Welders and Apprentices ensure the supply of a skilled workforce to various segments of the Construction Industry, including Union Mechanical Contractors in the ICI Sector.

The introduction in recent years of a number of Legislative amendments to the Ontario Labour Relations Act has negatively impacted and destabilised our Industry. The parties recognise it is imperative the MCAO Contractors and the OPTC members maintain a positive working relationship.

The parties wish to make a clear statement reflecting our interdependency and commit to a future partnership. Further, we will embrace those principles that represent our obligations and responsibilities to our Industry and the advancement of the Unionized Sector.

The formal basis of our partnership is the Provincial Collective Agreement that stipulates the Contractors and the employees to a Unionized workplace. On behalf of our respective constituents, we reaffirm the undertaking to ensure our present status as being Union and wish to remain so.

To this end, we do not support the introduction of any more legislative changes that negatively impact our Unionized Industry. Each party shall make these statements herein known to other interested parties including our associate members.

In re-establishing our partnership for the future, we commit to working together in harmony. We will adopt other initiatives that will strengthen our relationship and mutually benefits our interests.
