

### Colorado Rush To Include Pre-ECNL Competitions for 2026/27 Season

Colorado Rush is proud to announce that they have been accepted into the Pre-ECNL for the U11 and U12 boys and girls age groups beginning in the Fall 2026 Season. The Elite Clubs National League is the nation's top youth soccer platform, featuring the country's premier players, teams, and clubs.

This is an important step for the club and a reflection of the continued growth and quality of the players, coaches, and development pathway. The Pre-ECNL provides a highly competitive platform designed to prepare young athletes for future ECNL competition while maintaining a strong focus on player development.

With this acceptance, Colorado Rush U11 and U12 teams will have the opportunity to compete against top clubs in the region, train in a challenging environment, and continue building the technical and tactical foundation that defines the club.

We are excited for our players and families and grateful to the coaches and staff who continue to raise the standard of our program. This milestone reinforces Colorado Rush's commitment to providing one of the top development environments in the region for both boys and girls.

More information regarding teams, schedules, and program details will be shared in the coming weeks.

Congratulations to our players, coaches, and families as we take this exciting step forward.
