BIODEGRADABLE CREMATION URNS

The Journey Earthurns® and The Shell Urns are perfect for ocean or deep water burial. Fabricated by hand from recycled and earth-friendly materials. These urns will float momentarily and then sink gracefully. Once on the ocean floor, the urn will dissolve naturally over time. Includes a water-soluable plastic bag, which dissolves on contact with water, allowing the cremated remains to be dispersed within minutes. The time each Earthurn® takes to break down will vary depending on climatic conditions.
