Team Changes / Number Conflicts

- If a player moves to a team where their existing jersey number is already assigned to another player, the moving player will be required to change the jersey number.
- Due to the age group formation changes, many players may transition to different teams. In situations involving duplicate jersey numbers, players from the older age group will have priority and retain the first right of refusal to keep their existing jersey number.
- If additional conflicts arise, final approval and determination will be made by the Program Director.

Select Program (U13–U19)

Returning AFU Players

- Existing Atlanta Fire United players will retain their previously assigned jersey number whenever possible.

New Players

- New players added to teams will select from the available jersey numbers within their respective age group and player pool.

Team Changes / Number Conflicts

- If a player moves to a team where their current jersey number is already assigned, the moving player will be required to select a new number.
- Due to the age group formation changes, many players may transition to different teams. In situations involving duplicate jersey numbers, players from the older age group will have priority and retain the first right of refusal to keep their existing jersey number.
- If conflicts persist, final approval will be determined by the Program Director.

Additional Roster Additions

If players are added after the initial roster has been finalized and submitted:

- Available jersey numbers will be assigned on a first-come, first-served basis
- Assignments will remain specific to each age group and player pool
