

## **T. CYBERSECURITY TRAINING POLICY**

The Greater Lafourche Port Commission (GLPC) will require all employees and elected officials with access to GLPC's information technology assets to complete the cybersecurity training program developed by the state of Louisiana's pursuant to La.R.S. 42:1267. All such employees and elected officials will be required to take this course in the first thirty days of initial employment or election.

GLPC will also require any contractor who has access to state or local government information technology assets to complete cybersecurity training during the term of the contract and during any renewal period. Completion of this training shall be included in the terms of a contract awarded by the Commission to a contractor who has access to its information technology assets.

The IT Director will be responsible for a periodical review of the GLPC's compliance with this policy and shall be responsible for any reporting of such compliance required by law.
