Client-Facing Email:

Hi [Client First Name],

Here's something you might not know:

In your industry, **30% to 50% of all leads go unanswered**—mostly because of after-hours calls, missed chats, or staff being tied up with other tasks.

That's not a staffing problem. It's a system problem.

With **Inbox AI Pro**, you get a powerful AI communication platform that handles:

- ✓ Web chat, WhatsApp, and SMS
- ✓ Missed-call text-back automation
- ✓ 24/7 AI voice receptionist
- ✓ Lead capture and appointment booking—all automatically

Clients today expect a reply in **under 60 minutes**. Inbox AI Pro answers instantly.

Let's get it working for your business.

- All stats pulled directly from the industry report you uploaded
- This is your “wake-up” email to spark urgency and open budget talks

✓ **EMAIL 3: Your Customers Expect Speed**

Subject Line: 60 Minutes or Less—That's What Customers Expect

✉️ **Client-Facing Email:**

Hi [Client First Name],

Across every service industry today, one trend is clear:

Customers expect a response in under an hour—or they move on.

According to recent benchmarks:

- Dental patients expect confirmation in under 60 minutes
- Legal leads expect replies in 1–2 hours max
- Real estate buyers search heavily at night and weekends

If you're replying 3–6 hours later—or the next day—you're probably already losing leads.

Inbox AI Pro helps fix that instantly.

It's a multichannel platform that works 24/7—voice, SMS, chat, and web—so no one ever waits.

Want to test it on your website or phone line?

Best,
[Your Name]

- Match examples to the client's industry (stats are valid across multiple sectors)
 - This email is excellent before a demo or proposal—sets the tone for urgency
-
