Cremation Services

Cremation Services Explained

All our cremation service packages are designed for simplicity, ease, and with a budget in mind. Our estimated total cremation service price includes HST, disbursements, a temporary cremation container, pacemaker removal and much more than just the "basic" items your family will need to complete the funeral. Usually, the cremation takes place before any of the optional services are completed, and of course we include some private time for your family to say goodbye. The options are endless, and we can discuss them in full detail with you when you are ready. To keep our prices upfront and clear, we have broken down cremation services into four categories.

1. Simple — this service is the simplest that we offer. It entrusts the body of your loved one to us. We will care for them and accompany them to their final place of rest. Once the cremation is complete, we will contact the next of kin and return the ashes to them in a temporary container. Proof of Death Certificates are provided along with a consultation with one of our funeral directors to complete the aftercare program.

2. Witnessing — can be organized should a family want to see the casket placed into the cremation chamber and witness the beginning of the cremation process. This would be completed by meeting your family at the crematorium. It may be very difficult for some to be part of this process; therefore, we suggest that only a few people attend, and you fully understand what is happening prior to your arrival. One of our funeral directors will explain everything to your family should you wish to have this option. Once the cremation is complete, we will contact the next of kin and return the ashes to them in a temporary container. Proof of Death Certificates are provided along with a consultation with one of our funeral directors to complete the aftercare program.

3. Memorial — can be organized to take place following the cremation if the family would like to have a formal service, either religious or non-denominational. The urn is usually present, and our funeral directors will coordinate and host the entire event. Memorials keep funeral costs to a minimum while still allowing for a formal service. Holding the service within the funeral home would allow for the most flexibility in time selection. Traditionally, chapel services are held early in the morning, but evening vigils are becoming more popular because it allows guests to have a regular day of work and still have time to attend the funeral. An example of timing for this style of funeral would be 6:00-7:00 p.m. gathering, followed by a formal service beginning at 7:00 p.m. and concluding at approximately 8:00p.m.

Notes and Options Pertaining to Cremation Services: The normal cremation process usually takes between 4 - 5 business days to complete, however the time frame may change based on the crematorium, their availability, their hours of operation, the coroner's availability, and the time of death. An expedited cremation (2 business days) may be completed for an additional $250. Delivery of remains is included within 40 kms – one way – additional mileage is billed at $1.95 km thereafter. Distance calculated from the funeral homes address. Additional fees apply to removals that require more than one person.

The Private family ID is set up and organized to allow the next of kin a chance to say goodbye. Only the most immediate family is invited to attend (Maximum of 10 people for a maximum of 30 minutes. We suggest this happen as soon as possible unless embalming is completed. Should your family wish to add embalming to allow for a private visitation the pricing options are as follows: if your family chooses to use a visitation chapel, a fee of $890 applies. The use of lounge facilities is not included in a private family ID but can be used for a fee of $150.00 for 30 minutes.

Services include assistance with filing for Canada Pension Plan: Death Benefit, Survivor's Pension, Child(rens) Benefits, Health Card Cancellation, SIN Number Cancellation, estate planning information and information regarding community resources that are available to the family, as well as assistance in bereavement support. Funeral Vehicles

A five-passenger vehicle, funeral hearse, limousine, flower truck, and a utility van are all vehicles that are used on traditional services. The use of the vehicles may vary depending on your service selection. All of our vehicle pricing is based on the initial 40 kms – one way – additional mileage is billed at $1.95 / km thereafter. All vehicles come with an experienced staff member to assist with various tasks on the funeral day. The removal of a vehicle from a package may result in additional staffing charges. Limousines are not included to wait for receptions and are included for a maximum 5-hour funeral.

Additional time may be requested by the family and will be billed at $150 / hour.

Cancellation of a limousine will result in the addition of an additional non-licensed staff member for a 5-hour period $295. This person assists the funeral director with various duties such as: directing traffic in our parking lot, at the church and/or cemetery, opening of doors at the church and cemetery, guiding family and friends to various locations at the church and cemetery.

** A rental limousine service does not know the funeral business and typically will wait by the car and seldom open any doors. They do not help with placing of flowers, parking of any cars or retrieving funeral flags, etc.*

Horse Drawn Carriage is Subject to Availability

The use of the Horse Drawn Carriage is for an hour and a half period. Using this service is done in a variety of ways:

1. is to go in procession from the funeral home to arrive at church or
2. using the carriage once inside the cemetery gates, the casket could be transferred into the horse drawn carriage and then proceed to the mausoleum or burial plot.

Using this service requires more time, especially when we are processing to a church from the funeral home. The use of police escorts for this service is mandatory (police escorts are based on availability) to help with the slower procession speed and traffic congestion that we will be causing. If using this service at the cemetery only the use of police escorts is not necessary.

Payment, Financing & Funding

Unless otherwise specified in your contract, payment is due the following day of signing the contract. We retain the right to collect payment in full at the time the contract is signed. Payment may be made by cheque, bank draft, debit, or Credit Card (a 2% fee will be added for all credit cards). Beyond the allotted time, interest will be charged at a rate of 2% per month (equivalent to 26.82% per annum) until the date payment is made in full. If you are pre-paying for services or supplies, pre-authorized payment plans ranging from 1 - 4 years are also available. The funds are held in trust until the time of need. Please speak to one of our funeral directors for details.

Pre-Planning

Planning a funeral is an important event in our lives. We contribute to retirement plans, take out life insurance, and create wills. As your family matures, pre-planning your funeral becomes part of this important planning process. There is no charge for pre-planning, and it consists of a conference with our staff, where the funeral director will record statistical information, service selection, and casket selection. We keep the information on file and at the time of need will relay your selections to your family and estate representatives relieving them of the anxiety involved with making rushed decisions.

In addition to pre-arrangement services, we offer Guaranteed Funeral Costs through a pre-payment option where your payment is invested into a trust account at Guaranteed Funeral Deposits Canada. The deposited funds will accrue interest until the contract is fulfilled (when the services and supplies are delivered) or the contract is cancelled. Our plan allows you the option to cancel, change, or transfer your arrangement at any time in the years ahead (please refer to your funeral service contract). Our funding program strictly adheres to the Funeral, Burial and Cremation Services Act, 2002, ensuring complete protection for your investment, yourself, and your family. We will be pleased to answer any questions you may have about your prepayment options.

Our dedicated staff is available to assist you and your family in answering any questions or concerns regarding funeral pre-arrangements. Please contact us at your convenience.

Top 5 Reasons Preplanning a Funeral Could Be the Right Choice for You

If any of the following statements applies to you, then you are probably someone who will appreciate the benefits of preplanning your funeral.

1. You want to ease the burden on your family. If your wishes are unknown when you die, they will be faced with making difficult decisions at a trying time. Will they know if you wish to be buried or cremated? Will they agree on an open or closed casket? Will they agree on how much to spend? Confusion and disagreements are common occurrences when there is no plan to follow. You can avoid this by leaving a plan behind.

2. You want to assume the financial responsibility for your funeral. Planning enables you to make financial arrangements to cover your funeral costs. Even if you are leaving behind enough money, will your survivors be able to access it? Funeral insurance and funeral trusts are sound financial planning options you can consider ahead of time.

3. You want your family to have the benefit of a meaningful funeral. Psychologically, it provides a sense of closure and enables the family to begin the healing process. Families benefit emotionally and socially by honoring the lives of their loved ones with a fitting ceremony and by giving them a proper send off.

4. You want your final wishes to be followed. If you have specific preferences for the disposition of your remains and the nature of your funeral services, you can clearly express them in your funeral plan. You may wish to have burial or cremation, the epitaph on your headstone, or the music and readings at your funeral. Or you may not want a funeral ceremony. Whatever your wishes, they need to be set forth in your funeral plan.

5. Taking care of your funeral arrangements is a thoughtful and caring thing to do for your family. It is comforting to know that you have done all you can do to ease their burden.

Words of Remembrance or Eulogy

The Catholic Church suggests that a eulogy should be 2 - 3 minutes and one person reading, it should also be pre-written and approved by your priest. However, should you choose to complete the eulogy at the cemetery, or funeral home, there are no limitations on what you can say or time restraints. Other places of worship may have their own set of guidelines and it would be best to speak to the celebrant or minister.
