Partnerships with European clusters

Agreements with international gateways

In 2011, we signed a partnership agreement with BloM, biotech cluster organization of Munich. The cooperation scheme includes an exchange of best practices and support for global business development of SMEs in our regions.

Agreements with new strategic partners

In order to facilitate the collaboration between local companies in Osaka and European ones, we signed a new agreement with bioXclusters; Biocat (Catalonia), BioM(Bavaria), bioPmed/Bioindustry Park Silvano Fumero (Piemonte) and Lyonbiopole (Rhône-Alpes) in 2016. Both parties agreed to work closely together to support SMEs interested in their respective regions.
