• 4.3: All teams are under the control of Race Officials from the time they are called to the Team Marshaling Area, or thirty (30) minutes before their next race, whichever is first, and will remain under the control of Race Officials until they have left the Team Marshaling Area after their race.

5. THE RACE
• 5.1: Each team will participate in a minimum of two (2) races overall.

• 5.2: After time trials, the (30) teams will be placed into category trial eliminations. Each “Category Trial Elimination” will then move onto Semi-Finals, then Finals.

• 5.3: Category racing placement will be determined by time trial race times. Fastest (4) teams winning category races will advance. In the event of a tie, time trial race times will be used as the tie breaker resulting in the team with the fastest time trial being declared the winner.

• 5.4: Teams will paddle the boat assigned to them by Race Officials and in the lane assigned. In the finals, race lanes will be decided by a flip of a coin.

• 5.5: If a paddle is dropped during a race, or is broken, the boat continues and the heat counts. If the stern paddle breaks or is dropped, the team may rerun that heat due to an equipment failure. Paddles of team members may be replaced between heats. Paddlers will be given a paddle selected by Race Officials.

• 5.6: After seeding, teams must follow seeded bracket order. THIS CANNOT BE CHANGED.

• 6.2: Approximately one (1) minute before the start, a warning will be given, followed by a second warning, then a start signal or command.

• 6.3: In the event of a false start, a second signal will be given to stop the race or a chase boat will signal to stop. Boats will line up again in the same lanes and the heat will be restarted. If the race is not stopped by the time the boats reach the half way marker, then the race will be re-run within one (1) hour.

• 6.4: When a team causes a false start, a warning will be given. If a second false start occurs, the race will continue but the team at fault will receive a five (5) second penalty.

• 7.1: Each boat must remain in its correct lane and must not interfere with the other boat. Any boat interfering with the progress of the other boat will be warned. If such interference warrants, then the offending boat may be disqualified.
7.2: In the event of a “spin out”, an equipment failure will be declared and that team must rerun that heat, alone. Or the team involved may elect to receive the time posted by the opposing team for that heat only.

7.3: If in the opinion of the Race Officials, a team appears to have swamped or capsized a boat intentionally or interfered with the other boat, to the same effect, then the offending team will be disqualified from all further event racing, and may be prevented from entering future racing.

8. THE FINISH

8.1: The finishing order of a race and the time taken by each boat will be determined by the official timekeeper and by the Race Officials whose determinations will be in all cases, final.

8.2: In the event of a tie for any place determining advancement to the next elimination round, placement will be determined as follows:
   - 8.2.1: The team with the lowest individual race trial time will be advanced to the next round.
   - 8.2.2: If still tied, then the number of wins versus loses will determine advancement to the next round.
   - 8.2.3: If still tied, then a single heat race will be run by the two teams. Lane and boat assignments will be determined by flipping a coin.

8.3: Any protest relating to race results must be brought to the attention of the Race Director by the Team Captain within fifteen (15) minutes after disembarking from the boat at the end of that race.
