1830 x 915mm OVL63

1520 x 580mm OVL52

1520 x 915mm OVL53

These planed panels are made in two heights, designed to be erected one on top of the other (reduces bulk for transport and easier construction). The Overlap and Louvered panels are compatible with each other offering numerous design possibilities. The panels are assembled using stainless steel nails. The capping rails are not included but may be purchased separately.

1830 x 1520mm PANEL SLEMPA65V

1830 x 1830mm PANEL SLEMPA66

900w x 1830h GATE SLEMGAT36V

The beauty of these strong panels is that they look the same, front and back. Also they can be erected horizontally or vertically. The infill boards are lapped so no privacy concerns in the event of shrinkage. Gates made to match. All timber is planed, pressure treated and assembled with stainless steel nails. Framework is 48mm thick and can be erected with our wooden slotted posts or into standard slotted concrete posts.

D GROOVE PANEL

1830 x 580mm DGRP62

1830 x 910mm DGRP63

As with our overlap panels, these robust, planed panels are made in two heights, designed to be erected one on top of the other (reduces bulk for transport and easier construction).

The boards are lapped so no privacy concerns in the event of shrinkage. These panels are made using stainless steel nails. They have been installed with Durapost anthracite grey posts and capping

**LURIG PANEL & GATE
VERTICAL**

1830 x 1830mm PANEL LURPA66

900w x 1830h GATE LURGAT36V

The Lurig panels are made almost identically to the Slemish range but for the gaps between the infill boards. They are equally robust and can be erected horizontally or vertically. Once again we make 900mm wide gates to match. The capping shown in the 4 photographs is supplied separately. We also can supply 125 x 100 slotted wooden posts giving an ideal finish to this beautiful fencing.
