# Outer Burial Container Price List – Effective July 1, 2026

In most areas of the country, state, or local law does not require that you buy a container to surround the casket in the grave. However, many cemeteries require that you have such a container so that the grave will not sink in. Either a grave liner or a burial vault will satisfy these requirements.

FRENCH will assist families in collecting vault setting fees that are required and paid to the cemetery. As a courtesy, Sunset Memorial Park will not charge this fee to families purchasing a vault through FRENCH.

What is a Burial Vault?

A burial vault is a lined and sealed outer receptacle that houses the casket. It protects the casket from the weight of the earth and heavy maintenance equipment that will pass over the grave. It also helps resist water and preserves the beauty of the cemetery or memorial park by preventing the ground from settling.
