

Snake River School District #52

INSTRUCTION

2470P

Self-Directed Learner Procedure

Eligibility Requirements

To be designated a self-directed learner, a student must meet all of the following criteria:

1. Demonstrate academic growth.
2. Demonstrate timeliness in returning assignments, self-motivation, and ability to establish goals.
3. Demonstrate growth toward age-appropriate learning outcomes.

Additionally, students in 8th grade or higher must show that they have made an informed choice of postsecondary career and education goals by:

1. Creating a full career pathway plan, also referred to as a student learning plan as defined in I.C. 33-1001(30), and keeping it up-to date; and
2. Working toward their postsecondary goals and supplementing their career pathway plan, if applicable, with such activities as participation in extended learning opportunities, advanced opportunities, challenging courses as described in Policy 2435, or successful completion of an online course. The Board directs the Superintendent or designee to develop a process for a student to document their post-secondary goals for the purposes of this policy.

The Board directs the Superintendent or their designee to determine ways of establishing whether a student has met all of the criteria above. These measures may be based on the following and/or on other measures the Superintendent or their designee deems appropriate:

1. GPA and/or achievement of a minimum grade for all classes or for specified classes;
2. Scores on specified assessments;
3. A portfolio of student work;
4. Teacher reports of whether the student meets all of the criteria listed above or specific criteria.

Designation of Self-Directed Learners

Self-directed learners shall have:

1. Permission of the student's parent/guardian if under 18 years of age.

2. A recommendation that self-directed learning would be appropriate and helpful to the student by at least one of the student's teachers. This may include the recommendation of the teacher who initiated the request.
3. A description of the exemptions from standard instruction practices and requirements sought for the student. If a student is to be absent from the classroom during the usual school day, this must include a statement of who will be responsible for supervising the student.
4. An explanation of how this flexibility will aid the student in meeting their goals as well as showing growth toward grade level content. For students in 8th grade and above, this shall include an explanation of how flexible learning will further the student's progress toward identified postsecondary goals.
5. Criteria the student will be required to meet to maintain self-directed learning, such as:
 - A. Continued mastery of content knowledge and skills, academic growth, progress toward postsecondary goals (if the student is in Grade 8 or higher), or other measures of student learning as specified;
 - B. Compliance with the District's rules regarding student conduct, except for any from which the student is specifically exempted; and
 - C. Submission of regular updates outlining the flexibility sought for upcoming instruction and how it will aid the student in meeting their goals.

Credit for Flexible Learning Opportunities

To receive credit for activities a student participates in as part of their flexible learning activities, a middle or high school student must:

1. Successfully complete an accredited online or correspondence course or a class taught by an Idaho school district or charter school; or
2. Earn college credit as allowed by District policy; or
3. Successfully challenge a course as described in Policy 2435.

Ending Self-Directed Learner Status

The Superintendent shall designate a staff member to supervise the self-directed learner's educational program. This staff member shall support the student in their flexible learning, monitor their academic progress, and monitor whether they are meeting the criteria described in the request for self-directed learner status.

If a teacher determines that:

1. A student is failing to meet these criteria; or
2. A student is failing to complete assignments within the agreed upon time provided

the teacher may recommend to the Superintendent or designee a recommendation to rescind the designation of self-directed learner. The Superintendent or designee shall determine whether to rescind the self-directed learner status. A student's parent or a student with the permission of their parent (if the student is under 18 years of age) may notify the District that they wish to terminate the student's flexible learner status.
