

HOOD SEATING ARE PASSIONATE ABOUT YOUR HEALTH AND WELL-BEING. WE BRING YOU OUR UNIQUE ERGONOMIC AND INTUITIVE TASK SEATING RANGE.

F94 PERFORMANCE SEATING

HOOD PHILOSOPHY

WE HAD A VISION...

TO CREATE SIMPLE-TO-USE **ERGONOMIC CHAIRS** THAT WOULD FIT EVERYBODY **EVERYWHERE. RESOURCES ARE** PRECIOUS, SO A SUSTAINABLE, **LONG-LIFE DESIGN WAS ESSENTIAL WHILST OFFERING** AFFORDABILITY FOR ALL. AT HOOD, WE DELIVER OUR RANGE OF UNIQUE CHAIRS QUICKLY TO OUR RESPECTED **DEALER NETWORK WITH** A PERSONAL SERVICE AND **COMMITMENT TO LONG-TERM** RELATIONSHIPS.

Where once ergonomics was about preventing or mitigating harm, it is now about helping people be more healthy, productive and active.

High-end seating manufacturers recognise the importance of muscle movement and engineer chairs to encourage people to shift position whilst seated. This movement stimulates the muscles; increases blood flow, relieves pressure points, and helps with concentration.

The mechanisms that enable this movement are no longer the exclusive domain of expensive chairs and can now be found throughout the Hood range. Healthy seating is no longer the luxury for the few but an affordable solution for everyone.

Comfortable employees typically work better; are happier and reduce the sick days an organisation can suffer. Hygiene, too, is improved by using modern materials such as mesh which offers ventilation and is easy to clean.

Our unique patented chairs have been designed so that every component can be removed and replaced to deliver extreme product longevity. Replacing damaged parts is good for our environment too.

You can be confident your Hood chair will always deliver at peak performance and outstanding return on investment.

F94 PERFORMANCE SEATING

ERGO-PERFORMANCE F94 IS THE CHAIR FOR EVERY **SCENARIO; FOR EVERY WORKSPACE ENVIRONMENT.** THE F94 HAS FOUR MODELS WITH THREE MECHANISM **OPTIONS. SIMPLE AND** INTUITIVE CONTROLS MEAN IT IS EASY TO ADJUST WITH MINIMAL TRAINING, HELPING **EVERYONE TO ACTIVELY SIT** PROPERLY. ALL GUARANTEED **FOR 10 YEARS REDUCING TO 3 YEARS IN 24 HOUR ENVIRONMENTS.**

At Hood Seating, we are passionate that people adjust their chairs so they stay healthy.

The F94's pictorial buttons make it easy to adjust height, seat-slide and tilt without user-training. Dynamic movement is essential to blood flow throughout the body and the direct tension control below the pictorial buttons adjusts to 'float' for all users weighing 8 to 23.5 stone.

Designed to encourage healthy seated posture, F94's integrated lumbar curvature offers superb lower back support with an extra lumbar panel to adjust perfectly within the 5 ratchet back positions. The shaped top of the back offers full thoracic support (upper back and shoulders) which is often a neglected area.

The F94 is built to last with a polished aluminium base as standard – it looks great too. 56 textile options are available, with leather or upholstered seat alternatives; two headrest options; foot rest and three arm styles mean you can design the F94 to be unique to you. Some people prefer their chair to have no arms – arms can be removed easily leaving the design uncompromised and safe for users.

Another useful option is a coat hanger attachment to the back of the chair which keeps jackets wrinkle free and safely off the floor.

F94 DESIGN YOUR PERFECT CHAIR
