Alongside developing and manufacturing market leading fireplaces, Evonic Fires are now **ISO:9001** certified. ISO stands for '**International Organisation for Standardisation**', and gaining this certification means we have proven our services and processes to be world-class in their quality, safety, and efficiency. When purchasing an Evonic fire, customers can be confident in receiving a product built to the highest standard.

Nationwide Retailer Network

With our extensive network of over 300 dedicated retailers, it has never been easier to find the Evonic fire you are looking for. Our website features a detailed search engine to locate your nearest Evonic Fires stockist, and you can even narrow the search down to find particular ranges or models using our product filter tool.

Exemplary Customer Service

Our dedicated team work tirelessly to ensure we offer the highest calibre of customer service. The Evonic Fires sales department are always on hand to answer any queries you may have regarding our products before or after you make a purchase, and our knowledgeable service department will always have time to discuss any after sales questions, to ensure you are getting the best performance from your Evonic fire.

The Range

e-lectra by Evonic Fires is our latest range of fires, fully powered by e-smart technology. With a hypnotic flame picture enhanced by British woodland log's, the e-lectra range is a stunning display of striking visuals paired with smart application.

Built-Ins

Our built-in models, the **e-lectra 1500** and **e-lectra 1250**, are the perfect focal point for your feature wall or living space.

Suites

With five woodwork finishes to choose from and two satin side wing options, our **e-lectra S-1350** suite can be customised to your liking.

Remote Control

The Evonic Fires remote handset comes as standard with all built-in models. This simple hand-held control will allow you easy access to the fireplaces main features: **ON** or **OFF**, animation selection, dim your lighting effect, or turn your over-bed illumination **ON** or **OFF**. You can also turn the heat feature **ON** to give a living space a steady boost of 1500W warm air. You can also access and control the features of our fires through the e-smart cloud app on your phone or tablet, along with Amazon Alexa or Google Assistant for voice control.

Features and Options

Choosing the correct size TV is another vital aspect to consider when building your media wall. Ideally, you want the television to be slightly narrower than the width of the fire in order for your wall not to look top-heavy. We have a suggested size guide to help you choose the best size to complement your fire.

Feature lighting has now become an essential factor in the design of a living space, with many consumers choosing to integrate lighting into their media wall to accent their fireplace, television, or simply add an extra light source to a room. Try adding the new app controlled, Evonic e-Illuminate smart lighting for that extra wow factor.

MODEL	RECOMMENDED SIZE
e-lectra 1500	Up to 65''
e-lectra 1250	Up to 55''
e-lectra - S 1350	Up to 55''

Our guarantee offers greater protection for customers over an extended period once your fireplace has been registered on our database - [evonicfires.co.uk/register-your-product](https://www.evonicfires.co.uk/register-your-product)

The Evonic Fires warranty came into effect as of the 1st May 2022, and details of this can be found in the back of your installation manual. Please note this warranty excludes certain consumable parts. Full details can be found on our website - www.evonicfires.co.uk

Please note: Evonic Fires prides itself on constant development and innovation. We therefore reserve the right to alter the specification of any Evonic Fires product without formal notice. The images in this brochure are produced using photography and CGI. Although the utmost care has been taken to accurately portray our products, we always advise a viewing in person at an approved Evonic Fires retailer's showroom.
