

Raising Hand during a Zoom Meeting

Are you having trouble finding the **Raise Hand** icon when you are in a Zoom meeting?

Depending on what kind of device you are Zoom-ing on and what version of the Zoom application you are using, raise hand will be in a different location on your screen.

On a PC or MAC computer/laptop	
Raise Hand is usually found on the bottom menu bar , in one of several places	
Option 1 Raise Hand appears on the menu bar	 A screenshot of the Zoom meeting bottom menu bar. The icons from left to right are: Participants, Chat, React, Raise hand (circled in red), Share, Host tools, and More.
Option 2 Click on "Reactions" to find Raise Hand	 A screenshot of the Zoom meeting bottom menu bar. The 'Reactions' icon is circled in red. A red arrow points from the 'Reactions' icon to a pop-up menu where the 'Raise Hand' option is highlighted.
Option 3 Click on "More" to find Raise Hand	 A screenshot of the Zoom meeting bottom menu bar. The 'More' icon is circled in red. A red arrow points from the 'More' icon to a vertical menu where the 'Raise hand' option is highlighted.

On a Phone or Tablet		
Raise Hand might initially be hidden from view		
Step One	Step Two	Step Three
If needed, tap your screen to show the menu	Select "More" to view all options	Select Raise Hand
		

More Hints and Troubleshooting

Alternative method using the participants' panel

You can also access the Raise Hand button directly from the participants' panel. Click "Participants" in the meeting controls, then click the "Raise Hand" icon next to your name.

Check your Zoom app to make sure it is not in full-screen mode

This mode hides the Raise Hand option by shrinking the toolbar at the bottom of your screen. You can still raise your hand by clicking on "Participants" and then clicking the "Raise Hand" icon.

Do you have an outdated Zoom app version?

The raise hand feature requires a minimum version of the Zoom desktop client or Zoom mobile app. If you are using an older version, update to the latest version to access all features. You can check for updates in the Zoom app settings or download the newest version from the Zoom website.
