## MINIMUM SERVICES

The Minimum Services charge represents the minimum non-declinable services required to facilitate the disposition of a deceased person, whether by cremation, or burial.

This minimum service charge is applicable to every family we serve and includes transferring the deceased from the place of death (or Coroner's Office, hospital, airport, etc.) to our holding room, where the deceased will be placed in a casket\* of your choosing and securely held until the necessary documentation is completed for burial, cremation or hydrolysis, as applicable. Once the required documentation is ready (i.e. death has been registered and if applicable, the coroner's certificate for cremation / hydrolysis has been obtained), the deceased is transported in a service van or SUV to the cemetery, crematorium, or hydrolysis facility at the earliest practicable opportunity or at a scheduled time, as applicable.

Additional fees may apply for mileage beyond 45km, pacemaker/radioactive implant removal and pallbearers (burial only).

### What is NOT included in the above Minimum Services charge:

- any supplies, such as a casket, outer burial container, urn, stationery, etc.
- any additional services that may be selected, such as pallbearers for interment, embalming, visitation and funeral services.
- additional mileage fees beyond 45 km
- Removing pacemaker / radioactive implant removal, if applicable
- applicable taxes (HST)
- disbursements to be paid to third parties on your behalf, such as the cemetery interment fee, crematorium fee, coroner's fee, death registration fee, etc. (as described on page 9)
- Body transfer, where more than one staff is required at coroner's office, residence or nursing homes.
- Drafting, placing, editing of death notice
- Online death notice on our website where online condolences may be left or accessed.

## **ADDITIONAL SERVICE OPTIONS**

We offer the following additional services, which are optional:

### **Additional body preparation services**

It is our policy that human remains have been positively identified prior to tagging of the body, this may have taken place at hospital, or other place of death. The identification may take place here by anyone who knew the deceased, including a relative, friend, neighbour, co-worker, or clergy person. While identification of a body is possible with the minimum required preparation, you may wish to consider opting for embalming, as it might afford a more peaceful final viewing experience. Embalming is not legally required but may be recommended to preserve the body between the time of death and final disposition. One of our funeral directors will be able to guide you on preparation options and make recommendations based on the condition of the body and the expected service needs.

### **Visitation**

These are informal gathering periods that allow family and friends to come and pay their respects and offer comfort to a grieving family. Suggested visiting hours are (2-4, 6-8 or 1 hour prior to the funeral).

### **Funeral services**

This includes services, rites and ceremonies with the body present in a casket. A funeral service can be religious or non-denominational and can be held in various places, including in our chapel, at a place of worship, a venue such as a club or hall, or at the graveside.

### **Memorial services or celebrations of life**

This is a service to commemorate the deceased, which takes place after the body has been cremated or hydrolyzed. The cremated / hydrolyzed remains may or may not be present, as preferred by you; a framed portrait and personal mementos might also serve as a focal point during the memorial service.

### **Receptions**

We offer a beautiful facility in which families may gather and receive guests for a luncheon after the funeral or memorial service. Our reception room accommodates up to 60 people.

## **CASKETS**

The following caskets listed are generally available. Additional options are available upon request. Unless otherwise noted, all caskets listed are standard adult size.

### **Minimum requirements for a casket:**

**For burial:** The least expensive wood casket is suitable and is required by most cemeteries' by-laws for interment, in the interest of the health and safety of the workers involved in the interment process. A metal casket may also be used for burial. A growing number of cemeteries in Ontario offer "green" burials, which may consist of interment of a body without a casket. Since there is no legal definition for a "green" burial, it varies from one cemetery to another. For more information, please speak with one of our funeral directors, or visit [www.greenburialcanada.ca](http://www.greenburialcanada.ca).

**For cremation:** A body must be presented to the crematorium in a rigid, leak-proof casket that is made of a combustible material, such as wood or cardboard. Caskets containing non-flammable, hazardous material or chlorinated or fibre-reinforced plastic, other than incidental metal, cannot be used for cremation. We offer a selection of inexpensive caskets below that are suitable for cremation.

**For hydrolysis:** A casket is not used for hydrolysis (also known as "aquamation"). In some circumstances, a hydrolysable container or shroud may be required. For more information on this alternative method of disposition, please speak with one of our funeral directors, or refer to the [Bereavement Authority of Ontario's Consumer Information Guide](#).

### **VAULTS & GRAVE LINERS**

Outer burial containers listed below are for standard adult size caskets. Oversize vaults are available to accommodate plus-size caskets. Price includes/does not include grave set up and lowering device.

You do not have to purchase a vault, unless the Medical Officer of Health has made the use of vaults and grave liners mandatory in the entire cemetery. A cemetery operator may designate a specific area in the cemetery where vaults or grave liners are required; however, the operator must have another area where vaults or grave liners are not required, so that consumers have a choice. A vault or grave liner may be recommended when there are environmental conditions such as poor drainage, or for practical or aesthetic reasons.

(All vaults are standard size unless otherwise noted and include dimensions only for oversize or smaller caskets.) Standard size 90" L X 34" W X 30" H

## **PAYMENT, FINANCING & FUNDING**

### **For services at time of death:**

Payment for Direct Cremation is due in full at the time of the arrangement. For all other services, a deposit of 50% is required. If a 50% deposit is unobtainable, the Funeral Home will require a second purchaser. The second purchaser must not reside at the same address as the first purchaser. Full payment is due within 15 days from the date this contract was signed.

Amounts outstanding after 15 days will bear interest at the rate of 2% per month, calculated compounded monthly from the Due Date until paid in full. There will be a charge of \$45.00 for any non-sufficient funds (NSF) cheques

returned by the bank. Any costs of collection shall be the responsibility of the Purchaser. Payment options: cash, cheque, MasterCard. Visa, debit and bank draft will be accepted. Financial assistance for funeral, burial, cremation / hydrolysis services is available through various governmental agencies, to those who qualify.

#### **Pre-payment in advance of need:**

For services that are being arranged pre-need, we offer two funding options when prepaying services or supplies:

**\* Trust:** You pay for the services and supplies at today's price, and we will place your money in a trust account, where it will accrue interest until the prepaid contract is fulfilled (when the services and supplies are delivered). Pre-payment can be made by cash, cheque, or credit. Funds are held in the purchaser's name.

**Guarantee:** When paid in full in accordance with the payment terms set out in the prepaid contract, the prepaid contract is guaranteed. The total payment(s) made plus interest / growth earned will be applied to the future price of the services and supplies. If the total payment(s) plus interest / growth earned are insufficient to cover the total future price of the prepaid services and supplies, we will absorb the difference as a loss. Any funds in excess of the total future price of the prepaid services and supplies will be returned to a beneficiary/estate or applied toward additional services, supplies and disbursements purchased at the time of need, as applicable. Conditions apply. Any changes to the prepaid contract may result in the prepaid contract being null and void and a new contract being executed with current pricing at the time changes are made.

Additional information about payment, financing and funding options is available upon request.
