ECLIPSE ECF - CANTED COIL SPRING INTERNAL FACE SEAL

Face Seals are typically used in static sealing applications. Internal Face Seals contain pressure inside a vessel and are often used as lid seals or in pipe flange fittings. A PTFE Face Seal offers advantages over traditional O-Rings in terms of pressure handling, chemical compatibility, and operating temperature range. Use in cryogenic applications is common.

TYPICAL RANGE OF APPLICATION

Pressure	Temperature
Vacuum to 3,000 psi [0 to 200 bar]	-320°F to 450°F [-195°C to 230°C]

Ratings will vary based on materials and operating conditions

Values and ratings in this catalog are based on industry standard applications operating under ideal conditions. The customer should assume responsibility for validation testing of performance and suitability of Eclipse Engineering products. Eclipse Engineering accepts no liability for the accuracy and applicability of provided information.

STANDARD ORDERING EXAMPLE:

ECF-I-234-ET006-M-S

- | | |
|-----------------------------------|---|
| ECF = Seal Series | M = Spring Load |
| I = Internal | L - Light
M - Medium
H - Heavy |
| 234 = Dash Number | S = Spring Material |
| ET006 = Seal Material Code | S - Stainless Steel
E - Elgiloy®
H - Hastelloy® |

NON-STANDARD ORDERING EXAMPLE:

ECF-I-C-02953-ET006-M-S

- | | |
|---|---|
| C = Nominal Cross-Section | 02953 = Seal OD in 1000ths |
| A = 1/16 in. (000 Series)
B = 3/32 in. (100 Series)
C = 1/8 in. (200 Series)
D = 3/16 in. (300 Series)
E = 1/4 in. (400 Series) | Example: 02953 = Ø2.953
[75MM] Seal Outside Diameter |

ECF STANDARD SEAL MATERIALS

ECLIPSE MATERIAL CODE	DESCRIPTION	COLOR	APPLICATIONS
ET000	Virgin PTFE	White	Light Duty / Static / Cryogenics
ET006	Carbon filled PTFE	Black	General Purpose
EU000	Virgin UHMWPE	Translucent White	Viscous Media / Water
ET014	Polyimide filled PTFE	Orange/Brown	High Sealability / Soft Hardware

See [Eclipse Material Guide](#) for complete list of available materials.

ECF STANDARD SPRING MATERIALS

ECLIPSE MATERIAL CODE	SPRING MATERIAL	APPLICATION
S	300 Series Stainless Steel	General purpose, standard spring material
E	Elgiloy®	Improved performance and corrosion resistance; NACE approved
H	Hastelloy® C276	Maximum chemical/corrosion resistance

We started Eclipse with the premise that if we could solve enough of our customers problems they would continue to come back to us for solutions regardless of the type of products we offered.

Eclipse has evolved to produce standard product offerings for a wide range of industries including Hydraulics, Pneumatics, Energy Production, Aerospace as well as Pharmaceutical and Food Handling. Instituting ISO9001/AS9100 quality system in 2015 allowed Eclipse to become a top tier supplier.

Today, Eclipse can support our smaller customers that require only a few seals a year to those needing in the 100's of thousands. We continue to retain a quality product and are able to deliver consistently on time. Our customers continue to bring us challenging projects that allow our team to do what we do best, problem solving.
