

Product Catalogue 2026

Acquapole Australia is a leading provider of innovative aqua fitness equipment and solutions designed to elevate the way people train in water.

We combine quality Italian & Polish craftsmanship with performance-driven design to support facilities and instructors delivering exceptional aquatic fitness experiences.

From durable engineering to practical versatility, our products are built to perform, inspire confidence, and transform every session in the pool.

Please note, we take pride in our products and programs. It will be compulsory for your facility to have trained instructors for Acquapole & SAF Aqua Drums Vibes to protect our brand, products & program quality. For training enquiries, email us at acquapole@pgss.com.au

We look forward to helping you with your Aquatic Fitness needs.

FULL DESCRIPTION

Acquapole Standard has a fiberglass base with a stainless-steel pole that attaches to the base with a quick coupling device. This piece of equipment is the most versatile and complete tool available for Aqua Fitness. It's groundbreaking features mean that the user decides how to use it as they are carrying out the exercises. The Acquapole is extremely stable and easy to handle, so it is simple to set up and remove from the water. It is easy to manage, set up, store, place in the pool and remove from the pool. Instructor training is a must to learn the possibilities of this program!

Please note delivery times vary as large items & orders are delivered direct from Italy.

ACQ002: Acquapole Standard with Boxing Bag

PRODUCT IMAGES

OVERVIEW

The addition of the Boxing Bag to the Acquapole allows the user to take fitness to a whole new level.

The Box Bag is inserted on the pole and locked with a hook that stabilizes its mobility.

It allows multiple users on the same pole training aqua boxing-fight lessons.

SPECIFICATIONS

- Simple easy locking system
- Materials: Chlorine resistant foam, HDPE & PVC
- Height: 80cm
- Base Diameter: 25cm
- Weight: 1.5kgs

PRICING AND OPTIONS

\$1899.00 + GST

\$300+GST individual Box Bag

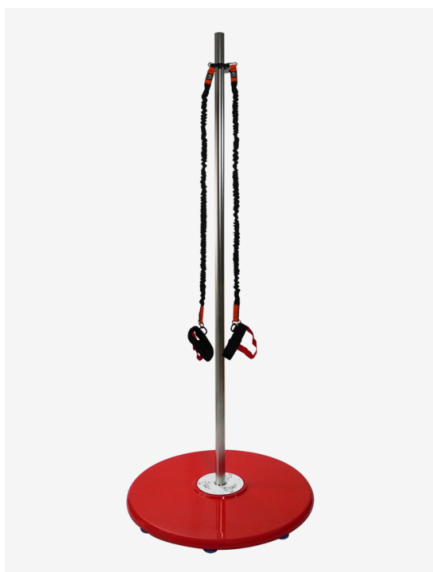

FULL DESCRIPTION

The addition of the Boxing Bag to the Acquapole allows the user to take fitness to a whole new level with high energy cardio workouts by sliding the boxing bag onto the Acquapole! Purchasing the Acquapole and Boxing Bag together gives the Aquatic Facility two classes with the one piece of equipment and can double the numbers in your classes.

The Boxing Bag is made of high density foam and attaches to the pole with a hook for easy assembly.

ACQ003: Acquapole Elastics

PRODUCT IMAGES

OVERVIEW

Pair of Elastics with anklet, wrist and belt bands that is fixed to the pole with a hook.

SPECIFICATIONS

- Materials: Plastic, Rubber, Nylon
- Height: 85cm
- Weight: 1kg
- Space Required: 150cm

PRICING AND OPTIONS

\$250 + GST

FULL DESCRIPTION

Inserting a specific hook onto the Acquapole®, to which rubber bands are attached, enriches the range of possible exercises and increases the intensity.

The hook can be positioned at different heights, which allows the use of different muscle groups.

Build your own aquatic workout and create your best training:

- New EPAS (Elastic Pole Aquatic Support) concept. Your aquatic TRX!
- Change Elastic Bands and increase your workout intensity.
- Train your flexibility.

ACQ004: Acquapole T-Traction

PRODUCT IMAGES

OVERVIEW

A T-shaped accessory that inserts to the top of the pole.

SPECIFICATIONS

- Materials: Electropolished AISI 316 Stainless Steel & HDPE thermoplastic
- Height: 14cm
- Base Diameter: 40cm
- Weight: 1.5kg

PRICING AND OPTIONS

\$120 + GST

FULL DESCRIPTION

The T-Traction Bar is for sliding onto the top of the Acquapole to work your upper body in the water. Thanks to its horizontal support surface, this accessory completes the piece of equipment, expanding the range of possible exercises. T-Traction is:

- Usable in both deep and shallow water
- At the end of the class, it is disassembled and the storage space required is reduced.

ACQ005: Acquapole Circuit Fusion Package 1

PRODUCT IMAGES

OVERVIEW

The Total Aquatic Workout Station

Package includes:

1 x Acquapole with Boxing Bag

2 x Standard Acquapoles

1 x Pair of TTR Connectors

ACQ007: Aquatic Step

PRODUCT IMAGES

OVERVIEW

The Aqua Step is the innovative water step designed to offer optimal performance during your pool workouts.

You can also use the Aqua Step in your swim school for your little swimmers to stand on!

SPECIFICATIONS

- Dimensions : 66x26 cm
- Weight : 3.6 kg
- Maximum height : 18 cm

PRICING AND OPTIONS

\$250 + GST

FULL DESCRIPTION

The Aqua Step is the innovative water step designed to offer optimal performance during your pool workouts. Thanks to its new design and exclusive material, it combines compactness, lightness, and stability, making it the ideal choice for those who want to perform water step activities in complete safety.

Main features:

Compact : With small dimensions (66x26 cm), it is perfect for optimising storage space.

Lightweight : Weighing just 3.6kg, it is easy to transport and handle.

Stable : The 6 suction cups ensure a firm grip on the bottom of the pool, even during the most intense exercises.

Non-slip : The footrest base, with a non-slip surface, offers maximum grip, reducing the risk of slipping.

ACQ008: SAF Aqua Drums Vibes Sticks

PRODUCT IMAGES

OVERVIEW

SAF Aqua Drums Vibes Sticks specifically made for water drumming classes and trainings.

SPECIFICATIONS

- Length: 30cm
- Width: 3cm
- Weight: 250 gm/each
- Durable plastic
- Hand straps

PRICING AND OPTIONS

Pricing Scheme per pair as follows:

10 pairs or under \$120 + GST

20 pairs or under \$110 + GST

30 pairs or under \$100 + GST

31 + pairs \$95 + GST

FULL DESCRIPTION

SAF Aqua Drums Vibes is a unique aqua fitness program that combines drum rhythms, lots of fun and a totally new approach to water training!

The design of a SAF Aqua Drum Vibes program alters the approach to resistance in the water by using specially designed Drum Sticks to lengthen the upper limbs and isometric muscle contractions which allows the participants to control the movement and increase the intensity of training. Water turbulence created during the class also builds the need for tensing all muscle groups including postural muscles.

SAF Aqua Drums Vibes is a lot of fun! During a class your clients will succumb to the sounds of rhythmical music, relieve their stress, unleash emotions and forget how hard they are working!

ACQ009: Liquid Combat Gloves

PRODUCT IMAGES

OVERVIEW

Hand Aquatic Gloves for Combat style resistance activities.

SPECIFICATIONS

- Non Porous Aquatic Foam
- Light Weight
- Red & Black available

PRICING AND OPTIONS

\$125 + GST per pair

FULL DESCRIPTION

Pair of gloves for aqua combat activities, they allow hard work of the upper limbs and work well with an Acquapole® Boxing Bag class or as part of an Aqua Fitness Cardio Class. Soft and excellent hand grip, its shape increases resistance in the water creating a challenging & effective workout.

ACQ010: Liquid Stars

PRODUCT IMAGES

OVERVIEW

Liquid Stars are a fun, practical piece of equipment

SPECIFICATIONS

- High Quality Dense Non Porous Aquatic Foam
- Diameter: 24cm
- Height: 4cm

PRICING AND OPTIONS

\$50 + GST per pair

FULL DESCRIPTION

The liquid star is a fun and practical piece of equipment , easy to use and adaptable for different kind of clients. With this small equipment you can do toning and functional workouts. You can adjust the resistance by the way you hold the stars and move them through the water, so it is easy to increase or decrease intensity. You can use them in your hands, under your knees and on your feet! They might be light weight but they pack in power!
