FAQ's

- **Why is payment required in August when there are no scheduled classes?**
The annual membership fee is £1,320, distributed across 12 months, resulting in a monthly payment of £110.
- **If PADA cancels a class, do we get a refund or credits?**
Refunds are not provided because membership covers unlimited classes. Optional classes or workshops may be scheduled at a later date or transferred to the following year. If the academy is closed for an extended period, payments will be credited.
- **Where is the Discount Code for the Online Store located?**
The code is distributed each year in September. If the code is misplaced, contact PADA via email to request another.
- **PADA has a new class, how do I enrol?** When a new class becomes available, you will receive an email notification. You may then complete your enrolment through our online portal.
- **My child isn't enrolled in all PADA classes yet; how do I add them to additional classes?** Please follow the same enrolment process via the Portal used for previous classes. As a Diamond Member, you may disregard any displayed pricing.
- **If my child wants to attend a class with a waiting list, how does my child receive priority on the list?** To receive priority, enrol your child on the waiting list for the chosen class through the portal. The system will indicate if your child holds Diamond Membership status, which assigns them top priority on the waiting list. While a limited number of places are reserved in each class for Diamond Members, if the class is at full capacity, they will be prioritised accordingly on the waitlist.
- **As the membership includes workshops by PADA, does my child automatically get placed?** No, all participants must enrol in the workshops through the portal on our website so attendance can be managed. While workshop access is included in the membership, automatic placement is not provided. Previously, students were placed automatically, but low attendance and lack of communication resulted in missed opportunities for students on waiting lists.
