Dear Teacher,

Your student _____ is being evaluated for ADHD. Please assist us by completing the attached two-sided Vanderbilt Assessment scale. You may find some of the questions to be difficult, and you may feel that some of the questions are inappropriate for this student. However, the assessment is most effective if all the questions are answered.

The completed form should be faxed or mailed back to us as soon as possible so that we will have the information prior to the scheduled parent/child consultation.

Thank you for your help and prompt response.

Sincerely,

TLC Pediatrics
