

## Section: Narratives - Needs Assessment

### Introduction

The findings of a recent study showed that there is a significant benefit to students who participate in out-of-school-time (OST) programs. In fact, the [Return on Investment of Afterschool Programs in Pennsylvania](#) study determined that for every dollar invested in after-school programming for students there was a return of \$6.69 in potential benefits to students, including reduced rates for drop-outs, teen pregnancy, substance abuse, crime and delinquency ([Link to PSAYDN.org](#)).

In accordance with the American Rescue Plan (ARP) Act and Pennsylvania Act 24 of 2021 (Act 24), the Pennsylvania Department of Education (PDE) will award approximately \$50,000,000 or one percent (1%) of Pennsylvania's ARP Elementary and Secondary School Education Relief (ESSER) State Reserve funds to support school districts, charter schools and cyber charter schools (collectively, LEAs) in the development and implementation of comprehensive after-school programs to address learning loss in response to the academic, social, emotional and mental health needs of students and subgroups of students impacted by COVID-19 public health emergency that supplement school programs and activities.

Act 24 requires that, when available, existing personnel shall be utilized by school districts, charter schools and cyber charter schools to staff programs and activities established with these grant funds.

Within 90 days of receipt of these allocations, school districts, charter schools and cyber charter schools must submit a three-part plan to PDE, that outlines the proposed use of the grant money, itemized by program and activity. This plan is part of a consolidated application that includes after-school programming, summer programming, and a comprehensive plan to address learning loss. The plan shall include:

- 1) A description of each program and activity
- 2) A narrative outlining the expected benefit of each program and activity
- 3) A budget for each program and activity detailing personnel and operating costs

PDE has developed the Accelerated Learning Toolkit, a significant cadre of resources and trainings, to support LEAs in the development of their plans. The Accelerated Learning Toolkit can be found [Link to Accelerated Learning Toolkit](#).

**Needs Assessment:** In this section, LEAs are asked to describe the impact of the pandemic on their students, examine disproportionate impacts on specific student groups, and highlight the LEA's promising practices in supporting students' needs since March 2020.

### Indicators of Impact

1. Describe how the LEA identified students for inclusion in after-school programming. Include a brief description of the indicators used in the decision-making process.

Beginning, middle of the year and end of the year diagnostics were completed on students. Teachers used the data to determine which students would best be served by the after-school program. Those students were invited to the summer school program. Additionally, the Special Ed students who had not succeeded in testing at their pre-covid data point were placed in an after school program.

**Section: Narratives - After-school Program**

**After-school Program Questions:** In this section, LEAs are asked to describe the activities they have designed to provide after- school programming for their students.

2. Identify the target student-group for the summer school program. Will the focus be on academic growth, social and emotional wellness, or some other factor to support student growth? For each group, provide specific strategies that were used or will be used to identify and measure impacts.

Student Group	Area of Focus	Number of Students Served	Provide specific strategies that were used or will be used to identify and measure impacts
Children from Low-Income Families	Academic Growth	100	Based on Aims web diagnostics, successmaker, and other reading and math diagnostics the LEA will identify students through pre assessment who perform below grade level. These students will be invited to participate in the afterschool program. The LEA will measure the impact through a post assessment diagnostic tool.

3. Describe the evidence-based resources that will be used to support student growth during the after- school program.

Teachers will incorporate The 95% group Phonics Booster Bundle: Tune-Up program which is a phonics program to address gaps resulting from COVID learning loss. The program provides teachers with phonics and word study lessons to catch up students who have experienced gaps due to instructional challenges during the pandemic. Teachers will incorporate SuccessMaker, Reflex Math, and/or IXL math resources to reinforce mastery of math skill deficiencies.

4. Describe the staff that will provide the after- school program (i.e., Internal staff or outside resources).

Number of Staff Members	Internal/Outside Provider	Role
7	Internal	Up to 7 teachers/aides will facilitate the after-school program.

a. The LEA assures it understands it is responsible to offer the work to its internal employees prior to engaging outside entities.

b. The LEA assures it understands it is responsible to ensure that all after-school program staff hold the appropriate certifications for the program that is being delivered.

5. How will the LEA assess the success of the after-school program? Please identify the tool, frequency of use, and expected results.

Tool Used to Evaluate Success	Frequency of Use	Expected Results
Aims web diagnostics	beginning, middle and end of session	Students will be expected to reach their pre-covid benchmarks. Once reached, new benchmarks will be set.
SuccessMaker	Cumulative Performance Reports will be examined to determine students mastery gained on a weekly basis as student complete lessons within the program.	Students will be expected to make growth toward on-grade level skills mastery.

6. How will the LEA engage families in the after-school program?

The LEA will advertise the after-school program through Class DoJo, email, and robo call messages as well as showcase the programs at a public meeting to engage families in support of the program and share the availability of this resource. Families will be invited to fully engage in the program through communications and connections to the LEA facilitators. Data reports from Aims web and SuccessMaker tools will be shared with families to highlight growth and data from IXL and Reflex math will be provided to parents to highlight skills practiced and academic growth.

**Section: Budget - Instruction Expenditures**

Instruction Expenditures

**Budget**  
 \$26,893.00  
**Allocation**  
 \$26,893.00

**Budget Over(Under) Allocation**  
 \$0.00

Budget Overview

Function	Object	Amount	Description
1400 - Other Instructional Programs – Elementary / Secondary	100 - Salaries	\$26,893.00	Teachers/aides will be paid their contracted rate for work associated with the after-school program.
