

NEOKAY® Drops (Vitamin K)

Product Information

What is NEOKAY® Drops?

NEOKAY® Drops is a nutritional supplement that has been specially developed to provide vitamin K1 for babies up to 3 months. Vitamin K1 plays an important role in the coagulation of blood. Because breast milk contains too little vitamin K1, nursing babies who are wholly or largely breast-fed require extra vitamin K1 for the first three months of life.

Neokay® drops are also intended to supplement the diet of premature babies that are bottle fed, until they reach three months of age.

Especially for babies, NEOKAY® Drops has:

The characteristics of providing vitamin K1 in amounts comparable to formula feed milk products, for proper coagulation of blood. Available in fractionated coconut oil (25 ml).

Each daily dose of NEOKAY® Drops contains:

A 0.25 ml dose will provide 50 µg of vitamin K1 dissolved in a pure fraction of coconut oil (Medium Chain Triglyceride) with vitamin E (dl-Alpha Tocopherol) as antioxidant.

VITAMINS		RDA*
K1	50 µg	n/a
E	125 µg	ca 1%

*= Recommended Daily Amount.

n/a No official RDA

Recommended Daily Use

One 0.25 ml dose to be given daily. Babies who are wholly or largely fed with breast milk should receive vitamin K1 on the second day following birth until and including the third month of life.

Method of Use

Shake the bottle before use.

Squeeze the bulb of the teat pipette and draw up the liquid to the 0.25 ml mark and administer to the baby. Avoid contact of the dropper with the baby's mouth or food to prevent contamination of the bottle contents.

Do not exceed the recommended use.

Keep out of the reach and sight of children.

Storage

Store in a cool and dry place, protect from light. Store in the original container. Do not store above 25°C. Do not freeze.
