 SERVING TWIN CITIES AND OUTLYING AREAS INCLUDING NORTHWEST AND CENTRAL WISCONSIN

## Three-Season Plus Home Service Plan

### Year-round protection! No trip fees!

### Spring

- Inspect for and remove all webs, hornet/wasp nests and any other evidence of pest activity from previous years on the exterior of garage and home.
- Look for possible mouse entry points and plug with copper wire mesh; inspect rodent control devices.
- Treat exterior perimeter to control spiders, wasps and other insect pests.
- Remove wasp nest and spider webs.

### Summer

- Inspect the exterior for and remove all webs, hornet/wasp nests and any other evidence of pest activity since spring.
- Treat the exterior perimeter to control carpenter ants and other ants.
- Inspect trees, stumps, etc. in yard for signs of carpenter ant and Japanese beetle activity.

### Fall

- Exterior treatment to prevent over-wintering of pests like Asian Lady Beetles and wasps.
- Look for any changes in structure that could allow mice, and plug any holes that are found.

### Plus

In early winter we will inspect all indoor pest control devices, as well as the lower level indoor areas such as the furnace and laundry rooms. We will include the garage if it's connected to your home. This comprehensive inspection will help ensure that any potential pest issues are identified and addressed promptly.
