WHAT AUTHORITIES REQUIRE

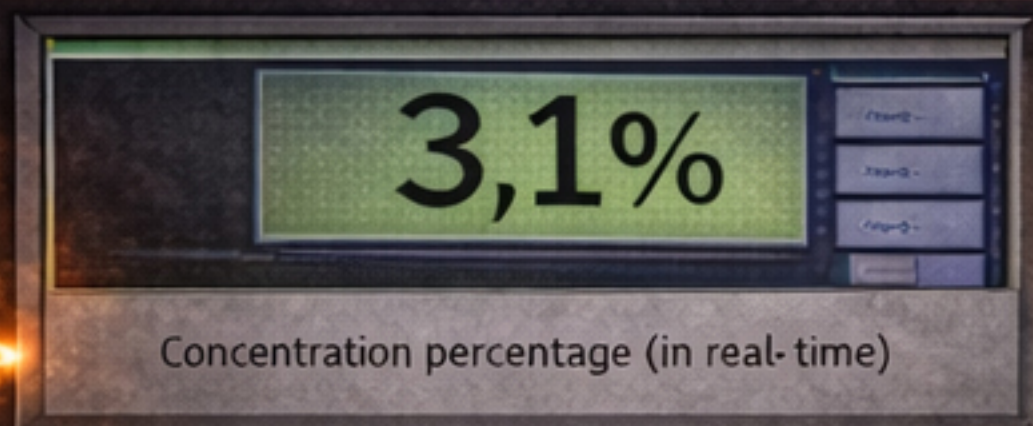

- PROPORTIONING ACCURACY
- REGULAR REPORTING
- ENVIRONMENTAL COMPLIANCE

THE SOLUTION: NoFoam FixPipe™

Verify your foam systems without discharging foam.

- ULTRA-SONIC (FLOWBASE)
- ZERO DISCHARGE
- AUDITABLE DATA
- ACCELERATED RETURN TO SERVICE

MÉASURABLE RESULTS, WITHOUT FOAM

INDUSTRY STANDARDS ARE EVOLVING — VERIFY YOUR FOAM SYSTEMS WITHOUT FOAM DISCHARGE

NoFoam FixPipe™ is the only proportioning verification system in the world, that is FM Approved for flow-based ultrasonic testing performed without foam discharge.

4 ADVANTAGES OF THE ULTRASONIC NoFoam FixPipe™ SYSTEM (FlowBase)

- Verified Accuracy & Compliance with Standards and Directives**
 - ✓ Confirms correct foam concentration under real flow and pressure conditions
 - ✓ FM Approved
 - ✓ Methodology compliant with NFPA
 - ✓ Compliance with FAA AC 150/32100-6

- Elimination of Environmental Liability**
 - ✓ No foam discharge
 - ✓ Testing performed without depleting your foam concentrate
 - ✓ No hazardous waste generated

- Accelerated System Restoration**
 - ✓ Faster return to service
 - ✓ Minimal system downtime

- Audit- and Insurer-Compliant Data**
 - Real measured data (GPM & % concentration)
 - ✓ Traceable and exportable reports (PDF)
 - ✓ Certifiable reports for AHJs, insurers, and authorities

TRADITIONAL TEST vs NOFOAM FIXPIPE™

Foam discharge	none
PFAS containment	none
System contamination	none
Environmental impact	none — total compliance

NoFoam FixPipe™
