

**FALCON**  **BOATS**

CREATE A SEMI-CUSTOM FALCON

Being able to create a semi-custom Falcon build allows you to personally design your catamaran based upon your style of boating.

# Falcon 22 COMFORT, PERFORMANCE & EXCITEMENT ALL STANDARD....

## Specifications

L.O.A.	22' 6"
Beam	8' 6"
Hull Draft**	14-1/2"
Max HP	Twin 150's
Fuel	80-Gal Standard
Livewell capacity	twin 22 Gal tanks
Fishbox	670 qt

## STANDARD FEATURES:

- Hybrid hull shape developed by renown multihull design team of Morelli and Melvin.
- Falcon full vacuum infused construction.
- Full composite, no wood construction.
- All major components and structural elements bonded with MMA adhesives.
- 2-piece construction with full length gunwale caps providing increased cockpit space, a toe kick along the side rails for comfortable fishing and a recessed space for mounting of ancillary lighting, electrical or other equipment.
- Contoured transom wall, providing rear seating while increasing the available cockpit space.
- Self-bailing cockpit & anchor locker.
- Gibco pattern molded deck non-skid.
- Fold down molded dash panel providing clean electrical and electronics wiring, that allows easy access for all or any future maintenance or system upgrades.
- Full forward opening console face for access to storage and optional Porta-Potti.
- Molded center console footrest.
- Large molded forward area for use as a casting platform and full width bench seating.
- (2) large forward storage compartments for gear.
- (2) 22-gallon insulated bait wells / livewells.
- 800 GPH live well pump with adjustable aerator flow valves and optional remote drain valve controls.
- (2) 1100 GPH bilge pumps with automatic float switches (one located in each hull)
- (2) 335-quart insulated Storage Boxes.
- Standard white molded gel coat surfaces throughout.
- (2) 40-gallon aluminum fuel tanks with Racor fuel filter water separators. (Std. 80-gallon) Additional fuel capacity available as an upgrade.
- Stainless Steel friction hinges provided on all access hatches and lids.
- (3) 6" retractable stainless steel cleats, plus an additional (2) 6" cleats with hawse pipes mid ship.
- (1) 3/8" stainless steel bow eye, plus (2) 3/8" stainless steel transom eyes.
- Stainless Steel flush mounted cup holders.
- Standard aluminum Leaning Post.
- Stainless Steel steering wheel.
- U-flex hydraulic steering system.
- Lighted Bocatech breaker-switch panel.
- Electronic signal horn.
- 12 volt and USB charging ports.
- LED navigation lights and aft anchor light.
- (2) LED courtesy deck lights.
- Recessed bronze high speed pick up for live wells and raw water that will not catch on trailers or lifts.
- (3) Stainless Steel garbor drains.
- All under water thru-hull fittings are metallic and provided with ball valve shut offs.
- Marine grade wiring & shrink tube throughout.
- Below deck raceways for easy access for running of controls, electronics, or power.

Removable Porta-Potti with optional interior lighting.

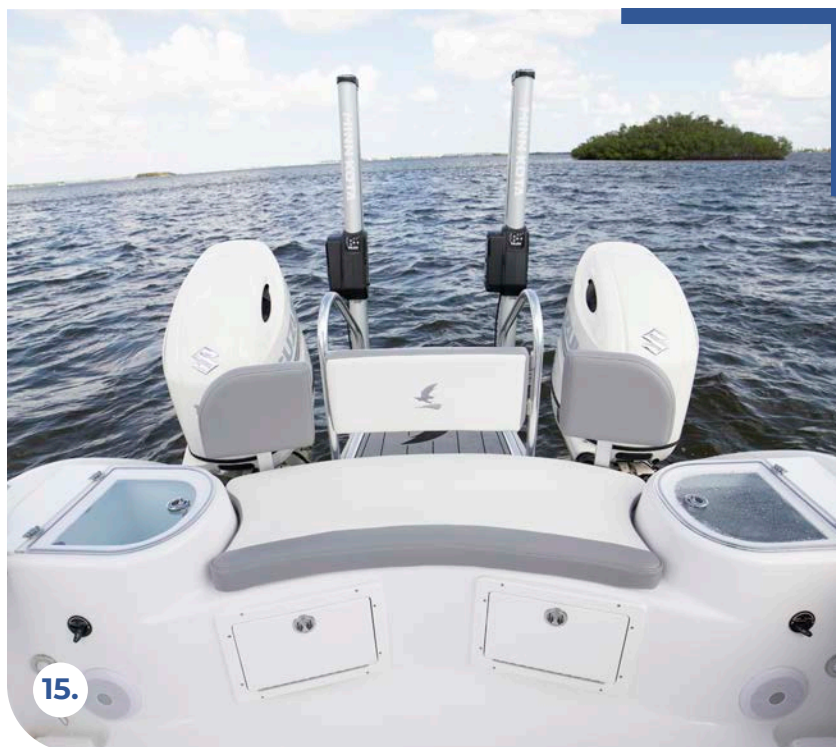

13.

## 14. AFT TACKLE STORAGE

Optional Aft Fishing Tackle Boxes.

14.

15.

## 15. DUAL TALON ANCHORING SYSTEM

Optional Aft Bench Seating with Removable Backrest, optional Clear Acrylic Live-well Lids, optional Tackle Boxes, optional Swim-Platform, with Optional 15' Talon Anchor Systems

## TWO HULL'S ARE BETTER THAN ONE!

Our goal was to fit a compact size catamaran design along with the affordability with-in grasp of the average mono-hull market. Leveraging the best technology, using proven innovation, focusing on dependability, reliability, and feature comforts without compromising the quality is a culture we take great pride in. It is the perfect combination providing the very best experience in purchasing Factory Direct Cutting Out the Middleman while SAVING THOUSANDS.

## FALCON INTEGRATES MORRELLI & MELVIN DESIGN AND ENGINEERING CATAMARANS

Individually custom built for each owner effectively outperforming our competitors in ride, comfort, stability, fuel efficiency, remaining dry, and overall space that is typically 33% larger and roomier when compared to the same length mono-hull. Combining our own formulation of composite's and innovations in this size catamaran is simply unheard of and yet affordable. A Symmetrical & Asymmetrical hull design like no other catamaran in this size is ONLY one of the key factors in our unique design.

Falcon Marine's technology is of the highest standards with vacuum resin infusion on every component throughout the build while eliminating a production backlog. We take great pride in the quality and efficiency of the build process without compromising the integrity. No more waiting six to eighteen-months to get your fishing dream machine and having it delivered in six to eight weeks!
