SUCCESS *Story* Homeownership

Maria, a single mom of triplets, turned adversity into opportunity when she met OCCHC. Determined to provide for her family, she began her own child care business where she poured her heart into nurturing children, while raising her own. Fueled by her unwavering dedication and support, Maria's triplets excelled in their education with one daughter majoring in Chemistry at UCI, another focused on Criminal Justice at CSULB and her son enlisted in the Marines. At OCCHC, Maria received the guidance and support needed to take the next step in securing her business and her future. Maria attended OCCHC's financial literacy workshops, education workshops and one-on-one counseling that helped her achieve the dream of becoming a homeowner. Our work doesn't stop there, as Maria sets her sights on expanding her business, our team continues to connect her to resources on protecting her assets and estate planning for her family's future!

Meet Jennifer

Class of 2025, UCLA

"The comfort and support of SteppingUP has been like no other. I initially joined the program because my older brother had been in it, it turned into one of the best decisions of my high school years. This program fueled my passion to study competitively. It educated me by having each advising session tailored to my needs. It created the ideal soil for the seed of my future to be planted. I am now going into my first year at UCLA to study physiology and owe a great part of it to the resources, comfort, and community that OCCHC provided."
