

VIRTUO TUTORS™

virtual and in-person educational services

GET CAUGHT UP.

Many students have fallen behind due to the lack of support they are received during school closures. Supplemental, one-on-one lessons will allow your child to get caught up so that they can feel confident and thrive academically.

ENJOY LEARNING.

The best part about learning one-on-one is that your tutor can design each session specifically to capture the attention of your child. Taking the child's lead and delving deeper into their interests is the best way to foster a healthy relationship with learning. Our goal is to help your child enjoy learning and look forward to each session.

STAY ENRICHED.

School closures have been difficult for both parents and students around the world; however, just because the classroom is closed does not mean enrichment should stop. Nurturing your child's relationship with education by continuing learning is setting your child up for a successful transition back to school.

BRIDGE THE GAP.

With less teacher support during distance and hybrid learning, many students are struggling to be successful learners. Individualized support in the one-on-one tutoring environment will help your child bridge the gap that has been created by distance learning.

OUR TUTORS

All of our tutors are highly qualified with a degree from a top institution and are experienced teaching and tutoring both in-person and online. We have a mix of certified teachers, licensed Speech-Language Pathologists, learning specialists with master's degrees in literacy, special education, and school counseling, and other exceptional professionals who can offer a unique tutoring experience, including teaching yoga, foreign languages, and coding.

OUR SERVICES

ACADEMIC TUTORING

Your child will be matched with a tutor who has experience teaching the specific academic areas of need of your child.

PRE-K ENRICHMENT

Our tutors will foster the development of early letter, number, and language skills to continue growth and learning.

HOMEWORK HELP

Your tutor will work with your child one-on-one to support their homework initiation, completion, and comprehension.

SPEECH LANGUAGE PATHOLOGY

Certified Speech and Language Pathologists will work with your child to remediate articulation disorders, speech disorders, and fluency disorders.

TEST PREP

Your tutor will help prepare your child to take any standardized test, private school entrance exam or admissions interview.

EXECUTIVE FUNCTIONING COACHING

Our tutors work with students to develop their executive functioning skills. Specifically, our tutors help students learn and practice strategies to initiate and complete homework assignments, manage their time, plan for short-term and long-term assignments, organize their materials, and break down and prioritize their assignments.

...and more!

OUR FOUNDER

Lauren is the Founder and CEO of Virtuo Tutors. Lauren is a licensed Speech-Language Pathologist (SLP), certified Teacher of Students with Speech and Language Disabilities (TSSLD), and an IBCCES Certified Student Mental Health Specialist (SMHS). She also works as an Autism and Special Needs Life Coach.
