ABOUT US

We are a new brand of bed and mattress company based in Monasterevin, Co. Kildare. We are so excited about seeing our beds and mattresses delivered to homes across Kildare and areas in County Laois. We have our own brand of labelled mattresses, each carefully handcrafted in Ireland with only the best material used during the manufacturing process. We carefully chose our manufacturing partner, who have been producing beds and mattresses for decades. In addition, we make sure our beds and mattresses that we produce are environmentally friendly, striving to make sure our products feel and look great too, giving you a great nights sleep, always. Our products are quality assured and we keep our range of mattress and beds small, this way we can choose only the best quality for our customers. If you require and Divan Bed or mattress and need it delivered in Kildare, get in touch with us today!

We provide excellent customer service, give us a call or email anytime.

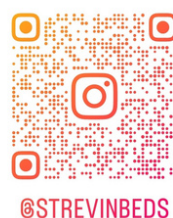

We provide premium quality mattresses and beds at great prices. Even better, all of our mattresses and beds are made in Ireland.

Our **number one** priority is our customers.
