

Medium Voltage Switchgear **38KV**

**BREAKER
AGNOSTIC!**

NEMA 1

NEMA 3R

In a world where downtime is non-negotiable, SAI delivers the uncompromising performance and protection your power system demands. Our 38kV metal-clad switchgear is precision-engineered for the highest standards of reliability, safety, and scalability — supporting mission-critical operations across utility, data center, transit, wastewater, and industrial sectors.

TECHNICAL DATA

- **Voltage:** 38kV, 3 phase 3 wire
- **Amperage:** Up to 3000A@40kA
- **Enclosure rating:** NEMA1 & 3R, up to 150kV BIL
- Vacuum Circuit Breaker- Breaker Agnostic
- Metal Clad Switchgear
- Integrated Protective Relaying
- Agency Listing: IEEE Rated
- Complex PLC Automation
- Non-Arc Resistant
- Custom colors at no extra charge
