

POWER DISTRIBUTION UNIT (PDU) **PROFUSION**TM

A revolutionary breakthrough in power distribution technology with **industry best lead times**, quality, and performance standards so that data centers last longer, **maximizing uptime** and minimizing operating costs.

TECHNICAL DATA

Voltage: Primary: 480 V, 3PH 3W; Secondary: 415Y/240V, 3PH 4W

Distribution Cabinet: 800A, 1200A, 1600A or 2000A

Bus bracing: 65kAIC

Agency Listing: UL891

Short Circuit Rating: 65 kAIC@480V

Electromagnetic standards: IEC 6000 parts 1 and 2

Transformer listing: Up to 115°C rise, Efficiency 98.6% minimum at 35% load per Dept. of Energy (DOE)

Monitoring: Primary metering and secondary branch circuit monitoring
