

Low Voltage Switchgear

UL 1558

Delivering industry-leading performance and flexibility, UL1558 is engineered for reliability, and seamless customization.

With high interrupting capacity, robust metal-clad construction, and advanced control integration, it adapts effortlessly to the most demanding electrical applications.

TECHNICAL DATA

Voltage: Up to 1000VAC

Ampacity: Up to 10,000A

Breakers: UL1066 Drawout

Short Circuit Rating: 65kAIC- 200kAIC

Access: Front and Rear

Cable Entry: Top or Bottom

Agency Listing: UL1558, cUL891 and ANSI

Seismic: IBC 2015, CBC 2016 Certified and Tested
