

Recovery Mobile Clinic

Mission:

Our mission is to provide treatment options for drug and alcohol addiction that have been proven effective in decreasing relapse rates while increasing treatment availability to a population who is largely under-served. Onsite Medical services that partner with homeless shelters, transitional houses, community centers, food pantries and more. We offer assistance with Medicaid applications for those without insurance. Recovery Mobile Clinic will never turn anyone away for an inability to pay. Medication refills, psychiatric med refills, Vivitrol injections, phlebotomy services, STD screening/treatment, HEP C treatment, HIV Prep, urgent care services, referrals to specialty services and more!

Focus Area: Health and Wellness

Project Title: Recovery Mobile Clinic - Metro Territory Expansion

Project Description:

The Metro Detroit area is facing an alarming shortage of primary care providers according to the MDHHS primary care needs assessment, as well as other specialty providers. The average wait time to find a primary care provider can be over two months. The Recovery Mobile Clinic will use the Impact100 funding to expand their proven mobile model to increase healthcare access, bridge the gaps, and offer treatments for primary care, mental health, and substance use disorder, while their case management service is able to help clients secure long term care options with local primary care and mental health services.
