

Precision Panels.  
Made On-Site.

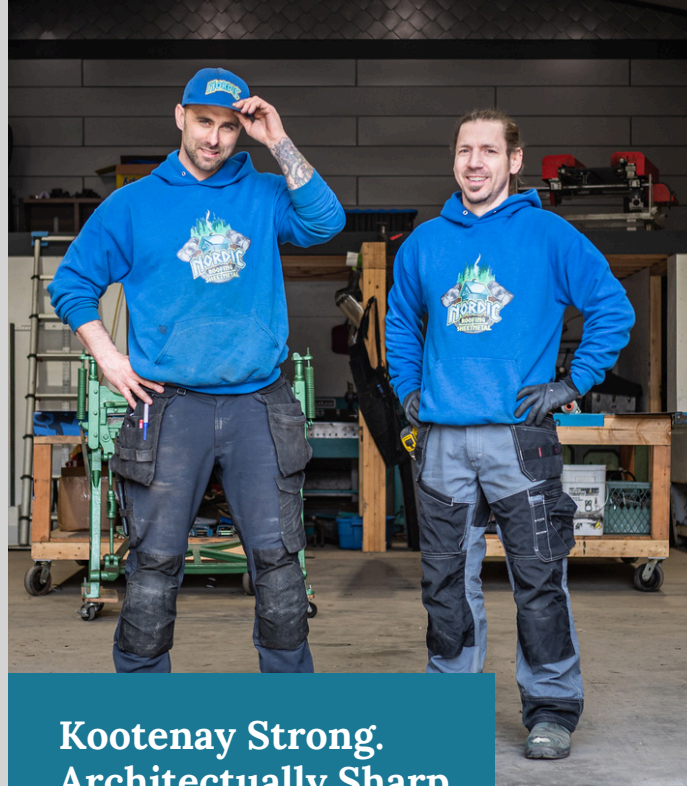

## Builder Advantage

- Faster project timelines
- Predictable delivery & install
- Reduced labour + material waste
- Consistent, high-end finish
- Competitive pricing

## Builder Pricing available

Starting from \$3.25 / sqft  
(Contact us for full spec sheet)

**Kootenay Strong.  
Architecturally Sharp.**

Founded in 2019 with over 18 years of experience, Nordic Roofing & Sheet Metal brings precision craftsmanship and advanced fabrication to every project.

With a full-scale shop and mobile rollforming system, we manufacture and install directly on-site or in-house — giving builders greater control, speed, and consistency.

## Stop Working Around Material Limits

Traditional panel supply creates delays, waste, and limitations on design.

With Nordic's NewTech SSQ II rollforming system, panels are produced exactly when and where you need them — eliminating bottlenecks and giving you full control over your build.

## What This Means For Your Project

- ✓ No minimum or maximum panel lengths
- ✓ No over-ordering or wasted material
- ✓ No transport damage or site delays
- ✓ Immediate adjustments when plans change

**One System.  
Endless Applications**

## Powered by the NewTech SSQ II Rollforming System

We produce premium architectural metal panels on-site or in-shop — fully customized to your exact specifications.

### What We Produce:

#### Roofing Panels

- Snaplock / Prolock (1.5" seam)
- Mechanical Standing Seam (1.5")
- Custom Profiles

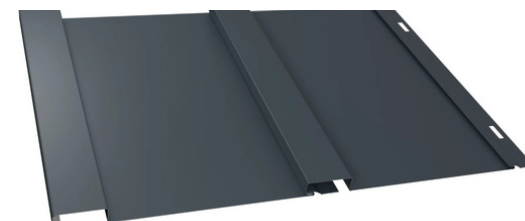

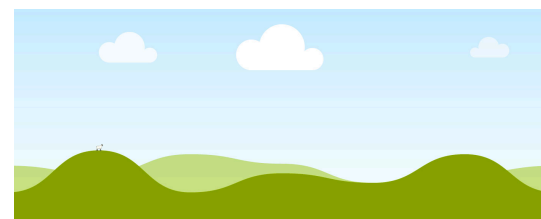

#### Siding Systems

- Board & Batten (integrated nailstrip — no clips)
- Metal Siding
- Flat lock panels

#### Custom Fabrication

- Flashings & Smart Trims
- Complete accessory packages

## Panel Profiles

### Key Differentiators:

- ✓ Exact panel lengths - every time
- ✓ Sharper lines, cleaner finishes
- ✓ Faster installs with less labour
- ✓ More flexibility for complex designs
